Financial Report

intertek

Annual Report &
Accounts 2024

We are pleased to share with you our **Annual Report & Accounts** in a unique, three-report format:

Report 1: Strategic Report

Where we discuss our growth opportunities and strategic performance.

Report 2: Sustainability Report

Where we discuss our environmental, social and governance progress.

Report 3: Financial Report

Where we record our financial activities, performance and position.

These separate, but connected reports, with their interconnected themes and narratives, allow us to present what we achieved in 2024 in a systemic, end-to-end architecture. They have been designed to make it easier for our stakeholders to fully understand our business, how we bring quality, safety and sustainability to life, what we offer our clients and society, and the opportunities we have ahead of us.

Contents

- 3.01 Consolidated income statement
- 3.02 Consolidated statement of comprehensive income
- 3.03 Consolidated statement of financial position
- 3.04 Consolidated statement of changes in equity
- 3.06 Consolidated statement of cash flows
- 3.07 Notes to the financial statements
- 3.51 Intertek Group plc - Company balance sheet
- 3.52 Intertek Group plc - Company statement of changes in equity
- 3.53 Notes to the Company financial statements
- 3.57 Independent Auditors' Report
- 3.64 Glossary - Alternative performance measures
- 3.67 Shareholder and corporate information

the power of
amazing

The power of amazing lies in the energy and passion of our incredible colleagues and the work they do every day. At Intertek, we constantly strive to be ever better. For over 130 years, we have been pioneers, lighting the way with ingenious solutions that touch every part of modern life. Our culture empowers our people and creates sustainable growth and value for all our stakeholders.

Our caring and trusted people live by our Values, working with passion and integrity to make a real difference. Their energy and commitment ensure our customers become ever more resilient, and that we all thrive and work together to make the world better, safer and more sustainable.

The notes on pages 3.07 to 3.50 are an integral part of these consolidated financial statements.

Cash outflow relating to Separately Disclosed Items was £13.4m for year ended 31 December 2024 (2023: £23.1m).

* Free cash flow of £395.4m (2023: £355.3m) comprises the asterisked items in the above consolidated statement of cash flows.

1 Material accounting policies

Basis of preparation

Accounting policies applicable to more than one section of the financial statements are shown below. Where accounting policies relate to a specific note in the financial statements, they are set out within that note, to provide readers of the financial statements with a more useful layout to the financial information presented.

Statement of compliance

Intertek Group plc is a public company incorporated in England & Wales and domiciled in the UK, limited by shares.

The Group financial statements as at and for the year ended 31 December 2024 consolidate those of the Company and its subsidiaries (together referred to as the 'Group') and include the Group's interests in associates. Intertek Group plc transitioned to UK-adopted international accounting standards in its consolidated financial statements on 1 January 2021. There was no impact or change in accounting policies from the transition. The Group financial statements have been prepared by the Directors in accordance with these accounting standards in conformity with the requirements of the Companies Act 2006. The Company financial statements present information about the Company as a separate entity and not about its Group. The Company has elected to prepare its Company financial statements in accordance with UK GAAP, comprising FRS 101 and applicable law; these are presented on pages 3.51 to 3.56.

Significant new accounting policies and standards

There are no significant new accounting standards or amendments to accounting standards that are effective for annual periods beginning on or after 1 January 2024 that have a material effect on the results of the Group.

Changes in accounting policies

The accounting policies set out in these financial statements have been applied consistently to all years presented, apart from those disclosed below. There are no new accounting standards that are effective for annual periods beginning on or after 1 January 2024 that have a material effect on the consolidated financial statements of the Group. There are no accounting standards that are issued but not yet effective that are expected to have a material effect on the consolidated financial statements of the Group.

Measurement convention

The financial statements are prepared on the historical cost basis except as discussed in the relevant accounting policies.

Functional and presentation currency

These consolidated financial statements are presented in sterling, which is the Company's functional currency. All information presented in sterling has been rounded to the nearest £0.1m.

Going concern

The Group has a broad customer base across its multiple business lines and in its different geographic regions and is supported by a robust balance sheet and strong operational cash flows.

The Board has reviewed the Group's financial forecasts up to 31 December 2026 to assess both liquidity requirements and debt covenants.

In addition, the Group's financial forecasts for 2025 and 2026, and the related liquidity position and forecast compliance with debt covenants, have been sensitised for a severe yet plausible decline in economic conditions (including an illustrative sensitivity scenario of a reduction of 30% to the base profit forecasts and the corresponding impact to cash flow forecasts in each of these years). In addition, reverse stress testing has also been applied to the model which represents a significant decline in cash flows compared with the 30% downside sensitivity. Such a scenario is considered to be remote. The Board remains satisfied with the Group's funding and liquidity position, with the Group forecast to remain within its committed facilities and compliant with debt covenants even following the 30% downside sensitivity. The sensitivity modelling excludes additional mitigating actions (e.g. dividend cash payments, non-essential overheads and non-committed capital expenditure) that are within management control and could be initiated if deemed required.

The undrawn headroom on the Group's committed borrowing facilities at 31 December 2024 was £655.7m (2023: £664.3m). The maturity of our borrowing facilities is disclosed in note 14 of the financial statements, with repayment of two senior notes totalling US\$1.20m required by 31 December 2025. Our models forecast these to be repaid using existing facilities. Full details of the Group's borrowing facilities and maturity profile are outlined in note 14.

On the basis of its forecasts to 31 December 2026, both base case and the severe but plausible downside, and available facilities, the Board has concluded that there are no material uncertainties over going concern, including no anticipated breach of covenants, and therefore the going concern basis of preparation continues to be appropriate.

Consideration of climate change

In preparing the financial statements, we have considered the impact of climate change (refer to Report 1, page 1.65 for further information). There is no material impact on the financial reporting judgements and estimates arising from our considerations, which is consistent with the assertion that risks associated with climate change are not expected to have a material impact on the viability of the Group in the short, medium and long term. Specifically we note the following:

- The Group continues to invest in on-site renewable energy generation at our locations.
- We have specifically considered the impact of climate change on the carrying value of fixed assets (see note 8).

Government grants

Government grants are recognised in the income statement so as to match them with the related expenses that they are intended to compensate. Where grants are received in advance of the related expenses, they are initially recognised in the balance sheet and released to match the related expenditure. Non-monetary grants are recognised at fair value. The related cash flow is classified in accordance with the nature of the activity.

1 Material accounting policies Continued

Basis of consolidation

Subsidiaries

Subsidiaries are those entities controlled by the Group. Control exists when the Group has power to direct the relevant activities, exposure to variable returns from the investee and the ability to use its power over the investee to affect the amount of investor returns. The financial statements of subsidiaries are included in the consolidated financial statements from the date that control commences until the date that control ceases.

For purchases of non-controlling interest in subsidiaries, the difference between the cost of the additional interest in the subsidiary and the non-controlling interest's share of the assets and liabilities reflected in the consolidated statement of financial position at the date of acquisition is reflected directly in shareholders' equity.

Transactions eliminated on consolidation

Intra-group balances and transactions, and any unrealised gains and losses or income and expenses arising from intra-group transactions, are eliminated in preparing the consolidated financial statements. Unrealised losses are eliminated in the same way as unrealised gains, but only to the extent that there is no evidence of impairment.

Foreign currency

Foreign currency transactions

Transactions in foreign currencies are translated to the respective functional currencies of Group entities at the foreign exchange rate ruling at the date of the transaction. Monetary assets and liabilities (for example, cash, trade receivables, trade payables) denominated in foreign currencies at the reporting date are translated at the foreign exchange rate ruling at that date. Foreign exchange differences arising on translation are generally recognised in the income statement. Non-monetary assets and liabilities that are measured in terms of historical cost in a foreign currency are translated using the exchange rate at the date of the transaction. For the policy on hedging of foreign currency transactions see note 14.

Foreign operations

The assets and liabilities of foreign operations, including goodwill and fair value adjustments arising on acquisition, are translated to sterling at foreign exchange rates ruling at the reporting date.

The income and expenses of foreign operations are translated into sterling at cumulative average rates of exchange during the year. Exchange differences arising from the translation of foreign operations are taken directly to equity in the translation reserve. They are released to the income statement upon disposal. For the policy on net investment hedging see note 14.

The most significant currencies for the Group were translated at the following exchange rates:

Value of £1	Assets and liabilities		Income and expenses	
	Actual rates		Cumulative average rates	
	31 December 2024	31 December 2023	2024	2023
US dollar	1.26	1.28	1.28	1.24
Euro	1.21	1.15	1.18	1.15
Chinese renminbi	9.18	9.14	9.21	8.81
Hong Kong dollar	9.76	10.00	9.99	9.71
Australian dollar	2.02	1.87	1.94	1.87

Key estimations and uncertainties

The preparation of financial statements in conformity with IFRSs ('International Financial Reporting Standards') requires management to make judgements and estimates that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the year in which the estimates are revised and in any future years affected.

Discussed below are key assumptions concerning the future, and other key sources of estimation at the reporting date, that could have a significant risk of causing a material adjustment to the carrying amount of assets and liabilities within the next financial year.

Impairment of goodwill

Following recognition of goodwill as a result of acquisitions, the Group determines, as a minimum on an annual basis and including current year acquisitions, whether goodwill is impaired, which requires an estimation of the future cash flows of the cash generating units to which the goodwill is allocated, as well as assumptions on growth rates and discount rates – see note 9. There is no significant risk of material impairment within the next financial year.

Employee post-retirement benefit obligations

For material defined benefit plans, the actuarial valuation includes assumptions such as discount rates, return on assets, salary progression and mortality rates. Further details and sensitivity analysis are included in note 16.

There are no critical accounting judgements.

Other accounting policies

Accounting policies relating to a specific note in the financial statements are set out within that note as follows:

	Note
Revenue	2
Separately Disclosed Items	3
Taxation	6
Property, plant and equipment	8
Goodwill and other intangible assets	9
Trade and other receivables	11
Trade and other payables	12
Provisions	13
Borrowings and financial instruments	14
Capital and reserves	15
Employee benefits	16
Share schemes	17
Non-controlling interest	20

2 Operating segments and presentation of results

Accounting policy

Revenue

Revenue represents the total amount receivable for services rendered when there is transfer of control to the customer, excluding sales-related taxes and intra-group transactions.

Revenue from services rendered on short-term projects is generally recognised in the income statement when the relevant service is completed, usually when the report of findings or test/inspection certificate is issued. Short-term projects are considered to be those of less than two months' duration.

In line with IFRS 15, rebates and customer discounts are considered to be variable consideration and have been deducted from recognised revenue.

Revenue is recognised using the five steps for revenue recognition. The majority of contracts are for less than one year. The Group records transactions as revenue on the basis of value of work done, with the corresponding amount being included in trade receivables if the customer has been invoiced, or in contract assets if billing has yet to be completed. Performance obligations vary across business lines and regions, and on a contract-by-contract basis. There may be more than one performance obligation per contract, for example Alchemy Training Solutions contracts have multiple elements which are split between recognising revenue at a point in time for services such as right-of-use software licences, and over time for other services delivered under the same contract.

Long-term projects consist of two main types:

- time incurred, which is billed at agreed rates on a periodic basis, such as monthly; or
- staged payment invoicing, requiring an assessment of percentage of completion, based on services provided and revenue accrued accordingly.

Expenses are recharged to clients where permitted by the contract. Payments received in advance from customers are recognised in contract liabilities to the extent that performance obligations have not been satisfied.

The Group does not expect to have any material contracts where the period between the transfer of promised goods or services to the customer and payment by the customer exceeds one year. As a consequence, the Group does not adjust any of the transaction prices for the time value of money.

The Group has applied practical expedients in: i) recognising assets from the costs incurred to obtain or fulfil a contract; and ii) disclosing unsatisfied performance obligations in contracts as contracts have an expected duration of less than a year. The economic factors affecting revenue for both short- and long-term contracts are consistent within each.

Operating segments

The Group is organised into business lines, which are the Group's operating segments and are reported to the CEO, the chief operating decision maker.

These operating segments are aggregated into five segments, which are the Group's reportable segments, based on the similar nature of products and services and the mid- to long-term structural growth drivers.

When aggregating operating segments into the five reportable segments we have applied judgement over the similarities of the services provided, the wider economic impacts of the markets served within the segments, the customer base and the mid- to long-term structural growth drivers. Certain business lines within those former segments have also been reallocated to better align with the structural growth drivers of each segment.

The costs of the corporate head office and other costs which are not controlled by the five segments are allocated appropriately.

Inter-segment pricing is determined on an arm's length basis. There is no significant seasonality in the Group's operations. Segment results include items directly attributable to a segment as well as those that can be allocated on a reasonable basis.

The performance of the segments is assessed based on adjusted operating profit which is stated before Separately Disclosed Items. The operating segment revenue disclosures provided under IFRS 8 are consistent with the disaggregated revenue disclosure and recognition and measurement requirements of IFRS 15.

A reconciliation to operating profit by segment and Group profit for the year is included overleaf.

The principal activities of the reportable segments, and the customers they serve, are as follows:

Consumer products – Our Consumer Products segment focuses on the ATIC solutions we offer to our clients to develop and sell better, safer, and more sustainable products to their own clients. This segment includes the following business lines: Softlines, Hardlines, Electricals & Connected World and Government & Trade Services.

As a trusted partner to the world's leading retailers, manufacturers and distributors, the segment supports a wide range of industries including textiles, footwear, toys, hardlines, home appliances, consumer electronics, information and communication technology, automotive, aerospace, lighting, building products, industrial and renewable energy products, and healthcare.

Across these industries we provide a wide range of Assurance, Testing, Inspection and Certification ('ATIC') services including laboratory safety, quality and performance testing, and third-party certification. Our Government & Trade Services business provides inspection services to governments and regulatory bodies to support trade activities that help the flow of consumer products across borders, predominantly in the Middle East, Africa and South America.

2 Operating segments and presentation of results Continued

Corporate Assurance – Our Corporate Assurance segment focuses on the industry-agnostic assurance solutions we offer to our clients to make their value chains more sustainable and more resilient end-to-end. This segment includes Business Assurance and Assuris.

Intertek Business Assurance provides a full range of business process audit and support services, including accredited third-party management systems auditing and certification, second-party supplier auditing and supply chain solutions, sustainability data verification, process performance analysis and training. Assuris' global network of scientists, engineers and regulatory specialists provide clients with support to navigate complex scientific, regulatory, environmental, health, safety and quality challenges throughout their value chain.

Health and Safety – Our Health and Safety segment focuses on the ATIC solutions we offer to our clients to make sure we all enjoy a healthier and safer life. This segment includes AgriWorld, Food and Chemicals & Pharma business lines. The division provides differing services which reflect the breadth of our ATIC offering, but the services provided are similar in nature and include analytical assessment, inspection and technical services that are delivered to the customers through issuing certificates or reports.

Our AgriWorld business provides assurance, testing, inspection and certification services across the entire agricultural supply chain.

Our Food business provides food safety testing, hygiene and safety audits, inspection, certification and advisory services to food companies.

Our Chemicals & Pharma business enables clients to mitigate risks associated with product quality and safety and processes, supporting them with their product development, regulatory authorisation, chemical testing and production.

Industry and Infrastructure – Our Industry and Infrastructure segment focuses on the ATIC solutions our clients need to develop and build better, safer and greener infrastructure. This segment includes Industry Services, Minerals and Building & Construction. The nature of the products and services offered across the segment are similar, with services including technical inspections, asset integrity management and sample testing. These service lines interact through the customer type they service – ATIC services to Industry or Infrastructure-related products and the inputs into these industries.

Our Industry Services business line uses its in-depth knowledge of industries such as renewable energy, oil and gas, and petrochemicals to provide customers with a diverse range of Total Quality Assurance solutions. The services we offer include technical inspection, non-destructive and materials testing and asset performance management.

Our Minerals business offers expert inspection, analytical testing and advisory services to the minerals, exploration, ore and mining industries. We cover each step of the supply chain from exploration, production, sampling and inspection, to commercial trade settlement analysis.

Our Building & Construction business provides testing, inspection, certification and engineering services to the building and construction industries, offering product-related testing and certification capabilities, project-related assurance, testing, inspection and consulting services.

World of Energy – Our World of Energy segment focuses on the ATIC solutions we offer to our clients to develop better and greener fuels as well as renewables. This segment includes Caleb Brett, Transportation Technologies ('TT') and Clean Energy Associates ('CEA').

This segment consists of three global business lines with similar global growth drivers which are intrinsically linked to the wider economic factors, regulation over traditional hydrocarbons and sustainability of energy supply which impact the energy market. These business lines provide specialist cargo inspection, analytical assessment, calibration and related research and technical services to the world's petroleum and biofuels industries.

Our Caleb Brett business provides cargo and inventory inspection, analytical assessment, calibration and related research and technical services to the world's petroleum and biofuels industries.

TTs global network of laboratories provides diverse, rapid testing and validation services to the transportation market, evaluating to industry standards and international regulations, and delivers testing for new and emerging markets such as autonomous and connected vehicles, electric/hybrid vehicles, charging components, automotive telematics and aftermarket components.

CEA is a provider of quality assurance, supply-chain traceability and technical services to the solar energy, energy storage and green hydrogen sectors.

Following the IFRIC agenda decision on segment reporting issued in July 2024, the segmental disclosures have been aligned to the cost categorization in Note 4 to include Employee costs, considered to be a material item of expense for the Group. Consequently, the comparative figures have been updated to reflect this information.

The results of these segments for the year ended 31 December are shown below:

	Revenue from contracts with customers £m	Employee costs £m	Depreciation and software amortisation £m	Adjusted operating profit £m	Separately Disclosed Items £m	Operating profit £m
Year ended 31 December 2024						
Consumer Products	958.8	(387.1)	(49.9)	268.7	(11.7)	257.0
Corporate Assurance	496.3	(192.2)	(12.0)	117.2	(20.7)	96.5
Health and Safety	337.2	(147.4)	(19.4)	46.0	(6.3)	39.7
Industry and Infrastructure	843.6	(416.9)	(31.4)	80.7	(12.8)	67.9
World of Energy	757.3	(348.8)	(49.0)	77.5	(2.9)	74.6
Total	3,393.2	(1,492.4)	(161.7)	590.1	(54.4)	535.7
Group operating profit				590.1	(54.4)	535.7
Net financing costs				(42.3)	(3.4)	(45.7)

Geographic segments

Although the Group is managed through a divisional structure, which operates on a global basis, under the requirements of IFRS 8 the Group must disclose any specific countries that are important to the Group's performance. The Group considers the following to be the material countries in which it operates: the United States, China (including Hong Kong), the United Kingdom and Australia.

In presenting information on the basis of geographic segments, segment revenue is based on the location of the entity recognising that revenue. Segment assets are based on the geographical location of the assets.

	Revenue from external customers		Non-current assets	
	2024 £m	2023 £m	2024 £m	2023 £m
United States	1,025.7	1,022.5	1,093.4	1,083.3
China (including Hong Kong)	605.7	592.1	80.3	83.9
United Kingdom	227.9	217.0	251.5	247.4
Australia	171.4	176.1	473.0	528.9
Other countries and unallocated	1,362.5	1,321.0	464.7	442.8
Total	3,393.2	3,328.7	2,362.9	2,386.3

Major customers

No revenue from any individual customer exceeded 10% of total Group revenue in 2024 or 2023.

3 Separately Disclosed Items

Accounting policy

Adjusted results

In order to present the performance of the Group in a clear, consistent and comparable format, certain items are disclosed separately on the face of the income statement. Separately Disclosed Items ('SDI') are items which by their nature or size, in the opinion of the Directors, should be excluded from the adjusted results to provide readers with a clear and consistent view of the business performance of the Group and its operating segments on a year-on-year basis. A full glossary and definitions of adjusted performance metrics used by the Group is included on page 3.64.

When applicable, these items include: amortisation of acquisition intangibles; impairment of goodwill and other assets; the profit or loss on disposals of businesses or other significant non-current assets; the costs of acquiring and integrating acquisitions; the cost of any fundamental restructuring; the costs of any significant strategic projects; significant claims and settlements; and unrealised market or fair value gains or losses on financial assets or liabilities, including contingent consideration.

Adjusted operating profit, which is a non-GAAP measure, excludes the amortisation of acquired intangible assets, primarily customer relationships, as we do not believe that the amortisation charge in the income statement provides useful information about the cash costs of running our business as these assets will be supported and maintained by ongoing marketing and promotional expenditure, which is already reflected in operating costs. Amortisation of software, however, is included in adjusted operating profit as it is similar in nature to other capital expenditure.

The costs associated with our cost reduction programme are excluded from adjusted operating profit where they represent changes associated with operational streamlining and technology upgrades and are costs that are not expected to reoccur. The restructuring programme, which began in 2022, is expected to last up to five years.

The treatment as SDI is consistent with the disclosure of costs for similar restructuring and strategic programmes previously undertaken.

The impairment of goodwill and other assets that by their nature or size are not expected to recur, the profit and loss on disposals of businesses or other significant assets, and the costs associated with successful, active or aborted acquisitions are excluded from adjusted operating profit to provide useful information regarding the year-on-year performance of the Group's operations.

As adjusted results include the benefits of the items detailed above, but exclude significant costs related to those items, they should not be regarded as a complete picture of the Group's financial performance, which is presented on the face of the income statement under total results. The exclusion of these items may result in adjusted operating profit being materially higher or lower than total operating profit. In particular, where significant impairments, restructuring charges and legal costs are excluded in any year, adjusted operating profit will be higher than total operating profit.

3 Separately Disclosed Items Continued

Separately Disclosed Items

The Separately Disclosed Items are described in the table below:

		2024 £m	2023 £m
Operating costs:			
Amortisation of acquisition intangibles	(a)	(32.3)	(34.2)
Acquisition and integration costs	(b)	(2.5)	(8.3)
Restructuring costs	(c)	(15.8)	(22.4)
Significant claims and settlements	(d)	(3.8)	-
Total operating costs		(54.4)	(64.9)
Net financing costs	(e)	(3.4)	(20.0)
Total before income tax		(57.8)	(84.9)
Income tax credit on Separately Disclosed Items	(f)	12.4	20.6
Total		(45.4)	(64.3)

- (a) Of the amortisation of acquisition intangibles in the current period, £0.6m relates to the customer relationships and trade names acquired with the purchase of Base Metallurgical Laboratories Ltd ('Base Met Labs') in 2024.
- (b) Acquisition and integration costs comprise £1.3m (2023: £4.7m) for transaction and integration costs in respect of successful, active and aborted acquisitions in the current year, and £1.2m in respect of prior years' acquisitions (2023: £3.6m).
- (c) During 2022, the Group initiated the first year of a cost reduction programme. In 2024, costs of £15.8m (2023: £22.4m) included consolidating sites and offices, streamlining headcount and related asset write-offs.
- (d) Significant claims and settlements relate to commercial claims that are separately disclosable due to their size and nature.
- (e) Net financing costs of £3.4m (2023: £20.0m) relate to the unwinding of discount and changes in fair value of contingent consideration related to acquisitions.
- (f) Income tax credit on SDIs totalled £12.4m (2023: £20.6m) mainly relating to deferred tax impact of the movement in amortisation of intangibles.

4 Expenses and auditors' remuneration

An analysis of operating costs by nature is outlined below:

		2024 £m	2023 £m
Employee costs		1,492.4	1,450.2
Depreciation and software amortisation (notes 8 and 9)		161.7	175.3
Other expenses		1,203.4	1,217.0
Total		2,857.5	2,842.5

Certain expenses/(gains) are outlined in the table below, including fees paid to the auditors of the Group.

Mazars acts as external auditors of certain material and non-material entities within the Group. The total remuneration for the audit of these entities, included in the table below, was £0.6m (2023: £0.6m).

	2024 £m	2023 £m
Included in profit for the year are the following expenses/(gains):		
Property rentals	6.6	6.8
Lease and hire charges – fixtures, fittings and equipment	16.6	14.5
Government grants related to employee costs	(4.8)	(3.6)
Profit on disposal of property, plant, equipment and software	(3.9)	(3.2)
Auditors' remuneration:		
Audit of these financial statements	1.6	1.6
Amounts receivable by the auditors and their associates in respect of:		
Audit of financial statements of subsidiaries pursuant to legislation	4.3	4.2
Total audit fees payable pursuant to legislation	5.9	5.8
Audit-related services	0.2	0.2
Total	6.1	6.0

5 Employees

Total employee costs are shown below:

	2024 £m	2023 £m
Employee costs		
Wages and salaries	1,262.0	1,228.5
Equity-settled transactions	24.4	21.2
Social security costs	143.5	139.5
Pension costs (note 16)	62.5	61.0
Total employee costs	1,492.4	1,450.2

Details of pension arrangements and equity-settled transactions are set out in notes 16 and 17 respectively.

	2024	2023
Average number of employees by division		
Consumer Products	13,821	13,936
Corporate Assurance	4,165	3,946
Health and Safety	5,531	5,227
Industry and Infrastructure	10,273	9,966
World of Energy	8,717	8,530
Central	2,062	2,033
Total average number for the year ended 31 December	44,569	43,638
Total actual number at 31 December	45,000	43,908

5 Employees Continued

The total remuneration of the Directors is shown below:

	2024 £m	2023 £m
Directors' emoluments		
Directors' remuneration	5.9	4.9
Amounts charged under the long-term incentive scheme	3.1	2.9
Total Directors' emoluments	9.0	7.8

6 Taxation

Accounting policy

Income tax for the year comprises current and deferred tax. Income tax is recognised in the same primary statement as the accounting transaction to which it relates.

Current tax

Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantively enacted at the reporting date, and any adjustment to tax payable in respect of previous years.

Tax provisions are recognised for uncertain tax positions where a risk of an additional tax liability has been identified and it is probable that the Group will be required to settle that tax liability. Measurement is dependent on management's expectation of the outcome of decisions by tax authorities in the various tax jurisdictions in which the Group operates. This is assessed on a case-by-case basis using in-house tax experts, professional firms and previous experience. Where the outcome of discussions with tax authorities is different from the amount initially recorded, this difference will impact the tax expense in the period in which the determination is made.

Deferred tax

Deferred tax is provided using the balance sheet liability method, providing for temporary differences between the carrying amount of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes, except for:

- recognition of consolidated goodwill;
- the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit; and
- differences relating to investments in subsidiaries, branches, associates and interest in joint ventures, the reversal of which is under the control of the Group and where it is probable that the difference will not reverse in the foreseeable future.

The amount of deferred tax provided is based on the expected manner of realisation or settlement of the carrying amount of assets and liabilities, using tax rates that have been enacted or substantively enacted at the balance sheet date, for the periods when the asset is realised or the liability is settled. Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different taxable entities which intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realised simultaneously.

Deferred tax assets are recognised to the extent that there are taxable temporary differences relating to the same taxation authority, the same taxable company or different taxable companies part of the same tax group, which are expected to reverse in the same period, or to the extent that it is probable that future taxable profits will be available against which the temporary difference can be utilised. The carrying amount of deferred tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the deferred tax asset to be utilised. In calculating future taxable profits, the future forecasts considered were consistent with those used for the purposes of the Group's going concern and viability assessments.

The Group does not currently expect the climate-related risks discussed on pages 57 to 73 in Report 1 to have an impact on the availability to recover the deferred tax assets identified below. Any additional income taxes that arise from the distribution of dividends are recognised at the same time as the liability to pay the related dividend.

Tax expense

The Group operates across many different tax jurisdictions. Income and profits are earned and taxed in the individual countries in which they occur.

The statutory tax charge, including the impact of SDIs, of £122.8m (2023: £104.2m), equates to an effective rate of 25.1% (2023: 24.7%) and the cash tax on adjusted results is 23.1% (2023: 23.5%). The income tax expense for the adjusted profit before tax for the 12 months ended 31 December 2024 is £135.2m (2023: £124.8m). The Group's adjusted effective tax rate for the 12 months ended 31 December 2024 is 24.7% (2023: 24.6%).

Net differences between the consolidated effective tax rate of 25.1% and the statutory UK rate of 25.0% include but are not limited to: the mix of profits; the effect of tax rates in foreign jurisdictions; non-deductible expenses; the effect of movement in unrecognised deferred tax assets; movements in the provision for uncertain tax positions; withholding tax on intra-group dividends; tax-exempt income; and under/over provisions in previous periods.

The Group receives tax incentives in certain jurisdictions, resulting in a lower tax charge to the income statement. These tax incentives mainly relate to China's High and New Technology Enterprise and Technology Advanced Service Enterprise incentives. Without these incentives the adjusted effective tax rate would be 26.8% (2023: 26.9%). The tax on SDIs primarily relates to intangibles, financing costs, restructuring and integration.

6 Taxation Continued

Tax charge

The total income tax charge, comprising the current tax charge and the movement in deferred tax, recognised in the income statement is analysed as follows:

	2024 £m	2023 £m
Current tax charge for the period	132.9	116.7
Adjustments relating to prior year liabilities	(5.1)	(0.7)
Current tax	127.8	116.0
Deferred tax movement related to current year	(5.0)	(11.6)
Deferred tax movement related to prior year	-	(0.2)
Deferred tax movement	(5.0)	(11.8)
Total tax in income statement	122.8	104.2
Tax on adjusted result	135.2	124.8
Tax on Separately Disclosed Items	(12.4)	(20.6)
Total tax in income statement	122.8	104.2

Reconciliation of effective tax rate

The following table provides a reconciliation of the UK statutory corporation tax rate to the effective tax rate of the Group on profit before taxation.

	2024 £m	2023 £m
Profit before taxation	490.0	422.3
Notional tax charge at UK standard rate 25.0% (2023: 23.5%)	122.5	99.3
Differences in overseas tax rates	(7.0)	(1.0)
Withholding tax on intercompany dividends	7.4	6.9
Non-deductible expenses	10.4	13.4
Tax exempt income	(6.8)	(7.4)
Change in tax rate impact	(0.1)	(0.9)
Movement in unrecognised deferred tax	2.0	(0.4)
Adjustments in respect of prior years ¹	(5.1)	(0.9)
Other ²	(0.5)	(4.8)
Total tax in income statement	122.8	104.2

- Adjustments in respect of prior years mainly relate to current and deferred tax adjustments for the UK, the US, Australia and Mexico.
- The Other category contains R&D tax incentives of £3.3m (2023: £4.0m), a net £0.8m charge on provisions (2023: £3.3m credit) following a review of uncertain tax positions across multiple territories, and other local taxes.

On 20 June 2023, Finance (No.2) Act 2023 was substantively enacted in the UK, introducing a global minimum effective tax rate of 15%. Legislation implementing a domestic top-up tax and a multinational top-up tax applies to Intertek from the financial year ending 31 December 2024 onwards. Based on the results for the year, all but four jurisdictions qualify for one of the safe harbour exemptions. The top-up tax liability included in the current tax of £127.8m above is £0.6m (2023: £nil). Intertek has applied the exception under IAS 12 to recognising and disclosing information about deferred tax assets and liabilities related to top-up income taxes.

Income tax recognised in other comprehensive income ('OCI')

As noted in the accounting policy, tax is recognised in the same place as the relevant accounting charge.

The income tax recognised on items recorded in other comprehensive income is shown below:

	Before tax 2024 £m	Tax charge 2024 £m	Net of tax 2024 £m	Before tax 2023 £m	Tax charge 2023 £m	Net of tax 2023 £m
Foreign exchange translation differences of foreign operations	(64.8)	2.5	(62.3)	(147.1)	4.9	(142.2)
Net exchange gain/(loss) on hedges of net investments in foreign operations	1.7	4.6	6.3	58.8	(2.0)	56.8
(Loss)/Gain on fair value of cash flow hedges	-	-	-	(0.1)	-	(0.1)
Remeasurements on defined benefit pension schemes	3.7	(1.1)	2.6	(2.6)	0.1	(2.5)
Tax on other items that will never be reclassified to profit or loss	-	-	-	-	-	-
Total other comprehensive (expense)/income for the year	(59.4)	6.0	(53.4)	(91.0)	3.0	(88.0)

6 Taxation Continued

Income tax recognised directly in equity

As noted in the accounting policy, tax is recognised in the same place as the relevant accounting charge.

The income tax on items recognised in equity is shown below:

	Before tax 2024 £m	Tax charge 2024 £m	Net of tax 2024 £m	Before tax 2023 £m	Tax charge 2023 £m	Net of tax 2023 £m
Equity-settled transactions	24.4	0.9	25.3	21.2	0.1	21.3

Deferred tax

Recognised deferred tax assets and liabilities

Deferred tax assets and liabilities are attributable to the following:

	Assets 2024 £m	Assets 2023 £m	Liabilities 2024 £m	Liabilities 2023 £m	Net 2024 £m	Net 2023 £m
Intangible assets	0.7	1.0	(78.1)	(81.2)	(77.4)	(80.2)
Property, plant and equipment	73.5	71.5	(89.1)	(85.0)	(15.6)	(13.5)
Pensions	1.0	1.0	(6.5)	(5.1)	(5.5)	(4.1)
Equity-settled transactions	8.1	5.8	-	-	8.1	5.8
Provisions and other temporary differences	56.6	56.5	(11.0)	(13.7)	45.6	42.8
Tax value of losses	9.4	10.3	-	-	9.4	10.3
Total	149.3	146.1	(184.7)	(185.0)	(35.4)	(38.9)
As shown on balance sheet:						
Deferred tax assets*					34.5	36.4
Deferred tax liabilities*					(69.9)	(75.3)
Total					(35.4)	(38.9)

* The deferred tax analysed by category shown before considering whether balances are required to be offset against other deferred tax balances. The balance sheet shows the net deferred tax position taking account of offsetting within companies or jurisdictions required by accounting standards. The difference between the two asset and liability totals is £114.8m, but the net liability of £35.4m is the same in both cases. Included within Property, fixtures, fittings and equipment is a deferred tax asset of £70.6m (2023: £68.6m) and a deferred tax liability of £65.0m (2023: £63.3m) in respect of leasing transactions. Deferred tax assets totalling £6.3m have been recognised primarily in respect of Brazil and Argentina that have taxable losses either in the current or prior period. In evaluating whether it is probable that taxable profits will be earned in future accounting periods, all available evidence was considered, including approved budgets and forecasts. Following this evaluation, it is considered more likely than not that there will be sufficient future taxable profits to realise these deferred tax assets, the majority of which can be carried forward indefinitely excluding £0.9m losses which are due to expire within five years and £0.4m losses which are due to expire after five years. Of the £149.3m of deferred tax assets displayed above, £16.3m are expected to be recovered within 12 months of the date of this Annual Report and Accounts.

Movements in deferred tax temporary differences during the year

The movement in the year in deferred tax assets and liabilities is shown below:

	1 January 2024 £m	Exchange adjustments £m	Acquisitions £m	Recognised in income statement £m	Recognised in equity and OCI £m	31 December 2024 £m
Intangible assets	(80.2)	(0.3)	(1.5)	3.1	1.5	(77.4)
Property, fixtures, fittings and equipment	(13.5)	(0.4)	-	(1.6)	(0.1)	(15.6)
Pensions	(4.1)	-	-	(0.3)	(1.1)	(5.5)
Equity-settled transactions	5.8	-	-	1.4	0.9	8.1
Provisions and other temporary differences	42.8	(1.7)	-	4.8	(0.3)	45.6
Tax value of losses	10.3	(1.1)	1.6	(2.4)	1.0	9.4
Total	(38.9)	(3.5)	0.1	5.0	1.9	(35.4)

	1 January 2023 £m	Exchange adjustments £m	Acquisitions £m	Recognised in income statement £m	Recognised in equity and OCI £m	31 December 2023 £m
Intangible assets	(93.8)	3.8	(4.9)	11.7	3.0	(80.2)
Property, fixtures, fittings and equipment	(13.1)	0.8	(0.5)	(1.0)	0.3	(13.5)
Pensions	(4.1)	-	-	(0.1)	0.1	(4.1)
Equity-settled transactions	5.3	-	-	0.4	0.1	5.8
Provisions and other temporary differences	37.8	(1.7)	(0.4)	4.5	2.6	42.8
Tax value of losses	13.7	(0.7)	-	(3.7)	1.0	10.3
Total	(54.2)	2.2	(5.8)	11.8	7.1	(38.9)

6 Taxation Continued

Unrecognised deferred tax assets

Deferred tax assets have not been recognised in respect of the items shown below. The numbers shown are the gross temporary differences, and to calculate the potential deferred tax asset it is necessary to multiply these by the tax rates in each case:

	2024 £m	2023 £m
Intangibles	26.6	33.9
Pensions	1.5	1.5
Provisions and other temporary differences	4.0	3.6
Tax losses	147.0	165.4
Foreign tax credits ¹	1.2	9.9
Property, fixtures, fittings and equipment	(0.1)	(0.1)
Total	180.2	214.2

1. The total unrecognised foreign tax credits is £0.4m, the grossed-up equivalent amount of which is £1.2m as stated above.

Deferred tax assets have not been recognised in respect of these items because it is not probable that future taxable profits will be available in certain jurisdictions against which the Group can utilise the benefits from them.

Of the unrecognised tax losses above, £97.9m (2023: £103.9m) of these relate to US state tax losses due to insufficient taxable profits expected in the relevant states. In addition, £76m (2023: £7.2m) of these unrecognised losses relate to a dormant companies resident in South Africa with no probable future profits. A further £10.3m (2023: £13.8m) of these unrecognised losses relate to entities based in the UK, however these mainly relate to (i) non-trade deficits in entities where there is no probable prospect of future non-trade profits and (ii) capital losses where there is uncertainty on their utilisation in future periods.

There is a temporary difference of £401.4m (2023: £332.5m) which relates to unremitted post-acquisition overseas earnings. No deferred tax is provided on this amount as the distribution of these retained earnings is under the control of the Group and there is no intention to either repatriate from, or sell, the associated subsidiaries in the foreseeable future.

Expiry of unrecognised deferred tax assets - tax losses and tax credits

	2024 £m	2023 £m
Tax losses expiring:		
Within 10 years	29.0	37.6
More than 10 years	69.2	76.5
Available indefinitely	48.8	51.3
Total	147.0	165.4
Tax credits expiring:		
Within 10 years	1.2	9.9
More than 10 years	-	-
Available indefinitely	-	-
Total	1.2	9.9

In addition to the above, no specified time expiry is anticipated in respect of the other unrecognised deferred tax assets.

7 Earnings per ordinary share

The calculation of earnings per ordinary share is based on profit attributable to ordinary shareholders of the Company and the weighted average number of ordinary shares in issue during the year. Diluted earnings per share is calculated by adjusting the weighted average number of ordinary shares in issue on the assumption of conversion of all potentially dilutive ordinary shares. Potential ordinary shares shall be treated as dilutive when, and only when, their conversion to ordinary shares would decrease earnings per share or increase loss per share from continuing operations.

In addition to the earnings per share required by IAS 33 *Earnings Per Share*, an adjusted earnings per share has also been calculated and is based on earnings excluding the effect of amortisation of acquisition intangibles, goodwill impairment and other Separately Disclosed Items. It has been calculated to allow shareholders a better understanding of the trading performance of the Group. Details of the adjusted earnings per share are set out below:

	2024 £m	2023 £m
Profit attributable to ordinary shareholders	345.4	297.4
Separately Disclosed Items after tax (note 3)	45.4	64.3
Adjusted earnings	390.8	361.7
Number of shares (millions)		
Basic weighted average number of ordinary shares	161.1	161.3
Potentially dilutive share awards	1.3	0.9
Diluted weighted average number of shares	162.4	162.2
Basic earnings per share	214.4p	184.4p
Impact of potentially dilutive share awards	(1.7)p	(1.0)p
Diluted earnings per share	212.7p	183.4p
Adjusted basic earnings per share	242.6p	224.2p
Impact of potentially dilutive share awards	(2.0)p	(1.2)p
Adjusted diluted earnings per share	240.6p	223.0p

8 Property, plant and equipment

Accounting policy

Property, plant and equipment

Owned assets

Items of property, plant and equipment are measured at cost less accumulated depreciation and accumulated impairment losses. Cost includes expenditure that is directly attributable to the acquisition of the asset.

Leased assets

All leases where the Group is the lessee (with the exception of short-term and low-value leases) are recognised in the statement of financial position. A lease liability is recognised based on the present value of the future lease payments, and a corresponding right-of-use asset is recognised. The right-of-use asset is depreciated over the shorter of the lease term or the useful life of the asset. Lease payments are apportioned between finance charges and a reduction of the lease liability.

Low-value items, usually below £4,000, and short-term leases with a term of 12 months or less are not required to be recognised on the balance sheet and payments made in relation to these leases are recognised on a straight-line basis in the income statement. The Group leases various properties, principally offices and testing laboratories, which have varying terms and renewal rights that are typical to the territory in which they are located. Non-property includes all other leases, such as cars and printers. Normally the lease term is the contractual start to end date, except when a break or extension option is reasonably certain to be taken, which is considered on a lease-by-lease basis.

Depreciation

Depreciation is charged to the income statement on a straight-line basis over the estimated useful lives of items of property, plant and equipment. Leased assets are depreciated over the shorter of the expected lease term and their useful lives. Freehold land is not depreciated.

The estimated useful lives are as follows:

Freehold buildings	50 years
Leasehold buildings	Term of lease
Fixtures, fittings, plant and equipment	3 to 10 years

Depreciation methods, residual values and the useful lives of assets are reassessed at each reporting date.

Impairment

Non-financial assets

The carrying amounts of the Group's non-financial assets, other than inventories and deferred tax assets, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated to determine the level of any impairment.

Property, plant and equipment

The property, plant and equipment employed by the business is analysed below:

	Land and buildings £m	Fixtures, fittings, plant and equipment £m	Total £m
Cost			
At 1 January 2023	645.3	1,299.2	1,944.5
Exchange adjustments	(29.0)	(78.3)	(107.3)
Additions	65.4	116.1	181.5
Disposals	(48.1)	(64.1)	(112.2)
Businesses acquired (note 10)	0.8	1.4	2.2
At 31 December 2023	634.4	1,274.3	1,908.7
Accumulated depreciation			
At 1 January 2023	315.8	934.3	1,250.1
Exchange adjustments	(15.0)	(59.5)	(74.5)
Charge for the year	65.6	90.4	156.0
Impairments	-	2.6	2.6
Disposals	(34.6)	(60.5)	(95.1)
At 31 December 2023	331.8	907.3	1,239.1
Net book value at 31 December 2023	302.6	367.0	669.6

8 Property, plant and equipment Continued

	Land and buildings £m	Fixtures, fittings, plant and equipment £m	Total £m
Cost			
At 1 January 2024	634.4	1,274.3	1,908.7
Exchange adjustments	(9.8)	(27.1)	(36.9)
Additions	77.2	124.8	202.0
Disposals	(45.8)	(67.7)	(113.5)
Businesses acquired (note 10)	1.8	1.3	3.1
At 31 December 2024	657.8	1,305.6	1,963.4
Accumulated depreciation			
At 1 January 2024	331.8	907.3	1,239.1
Exchange adjustments	(3.5)	(17.9)	(21.4)
Charge for the year	64.3	80.1	144.4
Impairments	-	5.2	5.2
Disposals	(33.0)	(63.7)	(96.7)
At 31 December 2024	359.6	911.0	1,270.6
Net book value at 31 December 2024	298.2	394.6	692.8

Fixtures, fittings, plant and equipment include assets in the course of construction of £55.8m at 31 December 2024 (2023: £41.7m), mainly comprising laboratories under construction. These assets will not be depreciated until they are available for use.

The net book value of land and buildings comprised:

	2024 £m	2023 £m
Freehold	49.6	47.7
Leasehold	248.6	254.9
Total	298.2	302.6

Contracts for capital expenditure which are not provided in the financial statements amounted to £19.1m (2023: £7.2m).

We have specifically reviewed our portfolio of freehold properties (total 2024 net book value of £49.6m (2023: £47.7m)) to consider whether there are indications of material impairment arising from the potential physical risks arising from climate change. We have not impaired any assets this year as a result of this exercise.

As a result of the Group's cost reduction programme initiated in 2022, there were individual fixtures, fittings, plant and equipment assets no longer in use which resulted in an impairment of £6.9m (2023: £2.6m), with the cost recognised in SDI as a restructuring cost (see note 3).

The net book value of the right-of-use asset for leases comprised:

	Land and buildings £m	Other £m	Total £m
At 1 January 2023	269.5	28.1	297.6
Cost movement in year	(0.1)	4.7	4.6
Depreciation movement in year	(18.1)	2.5	(15.6)
Net book value at 31 December 2023	251.3	35.3	286.6
At 1 January 2024	251.3	35.3	286.6
Cost movement in year	23.4	(1.0)	22.4
Depreciation movement in year	(27.5)	(1.0)	(28.5)
Net book value at 31 December 2024	247.2	33.3	280.5

For lease liabilities, interest expenses on lease liabilities and cash outflows for leases, refer to note 14; for expense relating to short-term leases and leases of low-value assets, refer to note 4.

Other leases include motor vehicles, office equipment and fixtures and fittings.

9 Goodwill and other intangible assets

Accounting policy

Goodwill

Goodwill arises on the acquisition of businesses. Goodwill represents the difference between the cost of acquisition and the Group's interest in the fair value of the identifiable assets and liabilities acquired.

Goodwill is stated at cost less any accumulated impairment losses. Goodwill is allocated to cash generating units ('CGUs') and is not amortised but is tested annually for impairment.

Business combinations are accounted for using the acquisition method at the acquisition date, which is the date on which control is obtained.

The Group measures goodwill as the fair value of the consideration transferred less the net recognised amount (generally fair value) of the identifiable assets acquired and liabilities assumed, all measured as of the acquisition date.

Costs related to the acquisition, other than those associated with the issue of debt or equity securities, are expensed as incurred. Costs relating to acquisitions are shown in note 3.

Any contingent consideration payable is recognised at fair value at the acquisition date with subsequent changes recognised in profit or loss.

If at the reporting date the fair values of the acquiree's identifiable assets, liabilities and contingent liabilities can only be established provisionally, then these values are used. Adjustments to the fair values can be made within 12 months of the acquisition date and are taken as adjustments to goodwill.

Other intangible assets

When the Group makes an acquisition, management reviews the business and assets acquired to determine whether any intangible assets should be recognised separately from goodwill. If, based on management's judgement, such an asset is identified, then it is valued by discounting the probable future cash flows expected to be generated by the asset, over the estimated life of the asset. Where there is uncertainty over the amount of economic benefit and the useful life, this is factored into the calculation.

Intangible assets arising on acquisitions and computer software are stated at cost less accumulated amortisation and accumulated impairment losses. Identifiable intangibles are those which can be sold separately or which arise from legal rights regardless of whether those rights are separable, and which have finite useful lives.

Amortisation is charged to the income statement on a straight-line basis over the estimated useful lives. The estimated useful lives are as follows:

Computer software	Up to 7 years
Customer relationships	Up to 20 years
Technology and know-how	Up to 15 years
Trade names	Up to 18 years
Licences	Contractual life
Covenants not to compete	Contractual life

Impairment

Goodwill is not subject to amortisation and is tested annually for impairment and when circumstances indicate that the carrying value may be impaired. Goodwill is also tested for impairment in the year of any acquisition.

Other intangible assets are subject to amortisation and are reviewed for impairment whenever events or changes in circumstances indicate that the amount carried in the statement of financial position may be less than its recoverable amount.

Any impairment is recognised in the income statement within operating costs. Impairment is determined for goodwill by assessing the recoverable amount of each asset or group of assets, i.e. CGU, to which the goodwill relates. A CGU represents an asset grouping at the lowest level for which there are separately identifiable cash flows.

The recoverable amount of an asset or a CGU is the greater of its fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. The estimation process is complex due to the inherent risks and uncertainties and if different estimates were used this could materially change the projected value of the cash flows. An impairment loss in respect of goodwill is not reversed.

9 Goodwill and other intangible assets Continued

Intangibles

The intangibles employed by the business are analysed below:

	Other intangible assets					Total other intangible assets £m
	Goodwill £m	Customer relationships £m	Technology/ Know-how and trade names £m	Other acquisition intangibles £m	Computer software £m	
Cost						
At 1 January 2023	1,975.5	547.2	112.2	31.2	282.5	973.1

Net book value at 31 December 2024	1,365.9	134.3	53.4	1.0	115.5	304.2

Other intangible assets

Computer software additions of £21.7m (2023: £23.9m) relates to separately acquired computer software of £10.7m (2023: £9.9m) and internally developed intangible assets of £11.0m (2023: £14.0m).

The other acquisition intangibles net book value of £1.0m (2023: £1.4m) consists of guaranteed income, order backlog, licences and non-compete covenants.

The average remaining amortisation period for customer relationships is nine years (2023: seven years).

Computer software net book value of £115.5m (2023: £111.3m) includes software in construction of £44.4m (2023: £41.5m). Research and development expenditure of £42.6m (2023: £38.7m) was recognised as an expense in the year.

9 Goodwill and other intangible assets Continued

Goodwill

Goodwill arising from acquisitions in the current and prior year has been allocated to reportable segments as follows:

	2024 £m	2023 £m
Consumer Products	-	-
Corporate Assurance	-	170
Health and Safety	-	132
Industry and Infrastructure	15.4	-
World of Energy	-	-
At 31 December	15.4	30.2

In performing our annual impairment testing, the recoverable amount of each CGU has been calculated based on its value in use, estimated as the present value of projected future cash flows.

The goodwill held in the CGUs and aggregated groups of CGUs shown below is considered significant within the total carrying amount of goodwill at 31 December 2024:

	2024 pre-tax discount rate	2024 £m	2023 £m
Consumer Products ¹	9.3-9.4%	103.1	104.0
Corporate Assurance ²	9.4-9.5%	681.9	705.1
Health and Safety ³	9.4-9.5%	125.9	150.2
Industry and Infrastructure ⁴	9.5-10.6%	286.2	271.5
World of Energy ⁵	9.4-9.7%	168.8	155.0
At 31 December⁶		1,365.9	1,385.8

1 Within Consumer Products, goodwill allocated to the Electrical & Connected World CGU was £88.1m (2023: £88.5m) and the pre-tax discount rate was 9.4%.

2 Within Corporate Assurance, goodwill allocated to the Business Assurance CGU was £676.7m (2023: £699.7m), and the pre-tax discount rate was 9.4%.

3 Within Health and Safety, goodwill allocated to the Food CGU is £35.4m (2023: £40.8m), and goodwill allocated to the Chemicals & Pharma CGU is £76.7m (2023: £76.6m). Pre-tax discount rates were 9.4% and 9.5% respectively.

4 Within Industry and Infrastructure, goodwill allocated to the Minerals CGU is £47.7m (2023: £36.9m) and goodwill allocated to the Building & Construction CGU is £227.5m (2023: £223.7m). Pre-tax discount rates were 10.6% and 9.5% respectively.

5 Within World of Energy, goodwill allocated to the Caleb Brett CGU is £55.1m (2023: £42.5m), goodwill allocated to the Transportation Technologies CGU is £44.7m (2023: £44.5m) and goodwill allocated to the CEA CGU is £65.1m (2023: £63.6m). Pre-tax discount rates were 9.7%, 9.4% and 9.5% respectively.

6 All goodwill is recorded in local currency. Additions during the year are converted at the exchange rate on the date of the transaction and the goodwill at the end of the year is stated at closing exchange rates.

Impairment review

In order to determine whether impairments are required, the Group estimates the recoverable amount of each CGU. The calculation is based on projecting future cash flows over a five-year period and using a terminal value to incorporate expectations of growth thereafter. The long-term growth rate is used in the perpetuity calculations. A discount factor is applied to obtain a value in use which is the recoverable amount. Goodwill arising in year from acquisitions is assessed for impairment separately from the above CGUs and on an acquisition-by-acquisition basis. There was no impairment of goodwill for Base Met Labs from the date of acquisition to 31 December 2024. There would be no impact on the impairment review through the inclusion of Base Met Labs within the CGU review. No impairments were required on goodwill arising in 2024 (2023: no impairments).

The calculation of the value in use includes assessment of long-term growth rates and discount rates. Long-term growth rates predict growth beyond the Group's planning cycle, and range from 2.3% to 3.0% (2023: 2.3% to 3.0%). The discount rate for each CGU is based on the Group's weighted average cost of capital adjusted for the risks specific to the CGU. Pre-tax discount rates ranged from 9.3% to 10.6% (2023: 11.4% to 13.4%). The underlying cash flows include consideration of the potential impact of inflation.

Key assumptions

The key assumptions include the rate of revenue and profit growth within each of the territories and business lines in which the Group operates. These are based on the Group's approved budget and five-year strategic plan. Finally, the discount rate used to bring the cash flow back to a present value varies depending on the location of the operation and the nature of the operations. The estimated future cash flows are discounted to their present value using a discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

Sensitivity analysis

None of the reasonable downside sensitivity scenarios on key assumptions would cause the carrying amount of each CGU to exceed its recoverable amount. The sensitivities modelled by management include:

- Assuming revenues decline each year by 1% in 2025 to 2029 from the 2025 budgeted revenues, with margins increasing with base assumptions.
- Assuming zero growth in operating profit margins in 2025 to 2029 with revenues increasing per base assumptions.
- Assuming an increase in the discount rates used by 1%.

Management considers that the likelihood of any or all of the above scenarios occurring is low.

10 Acquisitions

Acquisitions in 2024

On 1 March 2024, the Group acquired Base Metallurgical Laboratories Ltd. and Base Met Labs US Ltd. (jointly 'Base Met Labs'), a leading provider of metallurgical testing services for the Minerals sector based in North America, for a purchase price of £23.9m. Purchase consideration net of cash acquired was £23.6m. The purchase price includes cash consideration of £14.9m, further contingent consideration payable of £7.8m and deferred consideration of £0.9m. The cash outflow in the period associated with this acquisition was £14.9m.

The acquisition of Base Met Labs will expand Intertek's industry leading ATIC offering in the Minerals industry, growing its geographic footprint into North America. Base Met Labs metallurgy capabilities are complementary to Intertek's existing strengths in geochemistry, mine site laboratories and trade inspection, creating synergies across the Intertek ATIC Minerals project cycle.

Provisional details of the net assets acquired and fair value adjustments are set out in the following tables. These analyses are provisional and amendments may be made to these figures in the 12 months following the date of acquisition.

	2024
	Provisional fair value to Group on acquisition £m
Base Met Labs Total	
Property, plant and equipment	3.1
Goodwill	15.4
Other intangible assets	7.7
Trade and other receivables	1.3
Trade and other payables	(1.8)
Deferred tax liabilities	(2.1)
Net assets acquired (net of cash acquired)	23.6

Goodwill and intangible assets

The total goodwill arising on acquisition made during 2024 was £15.4m, of which £nil is expected to be deductible for tax purposes. The goodwill arising represents the value of the assembled workforce and the benefits the Group expects to gain from increasing its presence in the relevant sectors in which the acquired businesses operate. The intangible assets of £7.7m primarily represent the value of customer relationships and trade names. The final values will be calculated within 12 months following the date of acquisition. The deferred tax liability thereon was £2.1m.

Consideration paid

The total cash consideration for the acquisitions in the year was £14.9m (2023: £43.6m), with further deferred and contingent considerations payable of £8.4m as at 31 December 2024 (2023: £5.5m) that comprises £8.7m purchase consideration and £0.3m revaluation of contingent consideration recognised during the year, which is disclosed in note 13. Cash consideration includes cash acquired of £0.3m (2023: £3.1m). The estimated purchase price net of cash was £23.6m (2023: £40.5m).

Contribution of acquisitions to revenue and profits

In total, acquisition made during 2024 contributed revenues of £5.7m (2023: £9.1m) and a statutory net profit after tax of £2.0m (2023: £1.4m) from the date of acquisition to year-end. The Group revenue and statutory profit after tax for the year ended 31 December 2024 would have been £3,394.3m and £367.5m respectively if the acquisitions were assumed to have been made on 1 January 2024.

Acquisition-related costs

Acquisition-related costs of £1.3m related to current year acquisitions are included in operating costs in the consolidated income statement as an SDI (see note 3) and in operating cash flows in the consolidated statement of cash flows.

10 Acquisitions Continued

Acquisitions in 2023

On 31 March 2023, the Group acquired Controle Analítico Análises Técnicas Ltda ('Controle Analítico'), a leading provider of environmental analysis, with a focus on water testing, based in Brazil, for a purchase price of £18.8m. Purchase consideration net of cash acquired was £18.3m. The purchase price includes cash consideration of £15.1m and a further contingent consideration payable of £3.7m. The net cash outflow in the period associated with this acquisition was £14.6m.

On 9 August 2023, the Group acquired PlayerLync Holdings, Inc. ('PlayerLync'), a leading SaaS-based platform which combines mobile learning, operational support and compliance, content management and people engagement in a single application, based in the USA, for a purchase price of £28.5m. Purchase consideration net of cash acquired was £25.9m. The net cash outflow in the period associated with this acquisition was £25.9m.

The net assets acquired and fair value adjustments are set out in the following tables:

	2023
	Fair value to Group on acquisition £m
Controle Analítico Análises Técnicas Ltda Total	
Property, plant and equipment	2.2
Goodwill	13.2
Other intangible assets	5.4
Trade and other receivables	0.6
Trade and other payables	(0.8)
Deferred tax liabilities	(2.3)
Net assets acquired (net of cash acquired)	18.3

	2023
	Fair value to Group on acquisition £m
PlayerLync Holdings, Inc Total	
Goodwill	17.0
Other intangible assets	11.2
Trade and other receivables	3.0
Trade and other payables	(1.9)
Deferred tax liabilities	(3.4)
Net assets acquired (net of cash acquired)	25.9

The provisional fair values disclosed in 2023 have been updated for PlayerLync, resulting in a reduction in goodwill of £2.1m and recognition of deferred tax asset on net operating losses. These fair value adjustments were made in the 12 months following the acquisition and are now final.

Key assumptions

The key assumptions in deriving the contingent consideration to be recognised include the weighted probability of making a payout and the discount rate used to bring the cash flow back to present values. The discount rates used for the calculation are aligned with the discount rates used for impairment purposes as set out in note 9.

Sensitivity analysis

It is estimated that an increase of 1% in the discount rate used to calculate the contingent consideration would have decreased the financial liability by £0.2m, and a 1% decrease in the discount rate would have increased the financial liability by £0.2m. It has also been estimated that an increase of 10% in the probability used to calculate the contingent consideration would have increased the financial liability by £4.6m, whilst a decrease of 10% in the probability used would have decreased the financial liability by £4.6m.

11 Trade and other receivables

Accounting policy

Trade receivables are recognised initially at the value of the invoice sent to the customer and subsequently at the amounts considered recoverable (amortised cost). Estimates are used in determining the level of receivables that will not, in the opinion of the Directors, be collected. The Group applies the simplified approach permitted by IFRS 9, which requires the use of the lifetime expected loss provision for all receivables, including contract assets. The provision calculations are based on historical credit losses and forward-looking data, namely specific country risk classifications with higher default rates applied to older balances. This approach is followed for all receivables unless there are specific circumstances, such as the bankruptcy of a customer or emerging market risks, which would render the receivable irrecoverable and therefore require a specific provision. A provision is made against trade receivables and contract assets until such time as the Group believes the amount to be irrecoverable, after which the trade receivable or contract assets balance is written off.

Trade and other receivables

Trade and other receivables are analysed below:

	Current 2024 £m	Current 2023 £m	Non-current 2024 £m	Non-current 2023 £m
Trade receivables	521.9	512.7	7.5	13.9
Contract assets	112.3	107.2	-	-
Other receivables	60.3	52.0	7.9	7.9
Prepayments	60.4	53.2	-	-
Total trade and other receivables	754.9	725.1	15.4	21.8

Trade receivables and contract assets are shown net of allowance for impairment losses of £10.3m (2023: £11.2m) and £2.1m (2023: £1.6m) respectively. Net impairment on trade receivables and contract assets charged as part of operating costs was £3.2m (2023: £2.3m charge) and £0.6m (2023: £nil) respectively.

There is no material difference between the above amounts for trade and other receivables and their fair value, due to their short-term duration. There is no concentration of credit risk with respect to trade receivables as the Group has a large number of customers who are internationally dispersed. Non-current receivables are discounted to the present value using an appropriate discount rate.

11 Trade and other receivables Continued

The ageing of trade receivables and contract assets at the reporting date was as follows:

	2024 £m	2023 £m
Under 3 months	543.4	528.1
Between 3 and 6 months	54.9	57.3
Between 6 and 12 months	21.4	25.7
Over 12 months	34.4	35.5
Gross trade receivables and contract assets	654.1	646.6
Allowance for impairment	(12.4)	(12.8)
Trade receivables and contract assets, net of allowance	641.7	633.8

Included in trade receivables under three months of £437.7m (2023: £424.8m) are trade receivables of £386.2m (2023: £374.4m) that are not yet due for payment.

The movement in the allowance for impairment in respect of trade receivables and contract assets during the year was as follows:

	2024 £m	2023 £m
Impairment allowance for doubtful trade receivables and contract assets		
At 1 January	12.8	15.6
Exchange differences	(1.3)	(2.3)
Acquisitions	0.1	0.1
Net impairment loss recognised	3.8	2.3
Receivables written off	(3.0)	(2.9)
At 31 December	12.4	12.8

Sensitivity analysis

Trade receivables and contract assets are assessed for impairment using a calculated credit loss assumption. A 0.25% variance in the assumed credit risk factor would impact impairment by £2.1m. There were no material individual impairments of trade receivables or contract assets.

12 Trade and other payables

Accounting policy

Trade payables

Trade payables are recognised at the value of the invoice received from a supplier. The carrying value of trade payables is considered approximate to fair value.

Trade and other payables

Trade and other payables are analysed below:

	Current 2024 £m	Current 2023 £m	Non-current 2024 £m	Non-current 2023 £m
Trade payables	223.0	204.8	0.5	0.5
Other payables	79.0	76.8	20.2	19.5
Accruals	318.9	305.5	7.1	3.7
Contract liabilities	136.7	148.5	22.0	6.4
Total trade and other payables	757.6	735.6	49.8	30.1

The Group's exposure to liquidity risk related to trade payables is disclosed in note 14. £128.1m of contract liabilities at the end of 2023 was recognised in revenue in 2024 (2023: £133.3m).

Other payables include revenue taxes, interest payable and retirement liabilities.

Contract liabilities consist of consideration received in advance of the Group transferring the related good or service to the client.

In one part of the Group an arrangement is available that allows payment terms to suppliers to be extended by up to 65 days. At 31 December 2024, this arrangement was applicable to trade payables totalling £2.5m (2023: £2.3m).

13 Provisions

Accounting policy

A provision is recognised in the balance sheet when the Group has a present legal or constructive obligation that can be estimated reliably as a result of a past event, and it is probable that an outflow of economic benefits will be required to settle the obligation.

Provisions

	Contingent consideration £m	Claims £m	Other £m	Total £m
At 1 January 2024	35.6	5.4	12.8	53.8
Exchange adjustments	(0.9)	(0.4)	(0.3)	(1.6)
Provided in the year:	-	6.8	16.5	23.3
in respect of current year acquisitions	8.4	-	-	8.4
in respect of prior year acquisitions	5.2	-	-	5.2
Released during the year	(1.5)	(0.7)	(0.7)	(2.9)
Utilised during the year	-	(7.9)	(16.0)	(23.9)
At 31 December 2024	46.8	3.2	12.3	62.3
Included in:				
Current liabilities	38.8	3.2	11.9	53.9
Non-current liabilities	8.0	-	0.4	8.4
At 31 December 2024	46.8	3.2	12.3	62.3

The maximum contingent consideration, on a discounted basis, that could be paid in relation to acquisitions is £208.7m. Further detail on the timing of the cash flow can be found in note 14. The contingent consideration is a financial liability discounted to the present value of the redemption amount held at fair value through profit and loss with the measurement basis disclosed in note 14.

The Group is involved in various claims and lawsuits incidental to the ordinary course of its business. The outcome of such litigation and the timing of any potential liability cannot be readily foreseen, as it is often subject to legal proceedings. Based on information currently available, the Directors consider that the cost to the Group of an unfavourable outcome arising from such litigation is unlikely to have a materially adverse effect on the financial position of the Group in the foreseeable future.

The provision for claims of £3.2m (2023: £5.4m) represents an estimate of the amounts payable in connection with identified claims from customers, former employees and other plaintiffs and associated legal costs. The timing of the cash outflow relating to the provisions is uncertain but is likely to be within one year. Details of contingent liabilities in respect of claims are set out in note 22.

The other provision of £12.3m (2023: £12.8m) includes restructuring provisions. The timing of the cash outflow is uncertain, but is likely to be within one year.

14 Borrowings and financial instruments

Accounting policy

Net financing costs

Net financing costs comprise: interest expense on borrowings; interest expense on tax balances; facility fees; interest receivable on funds invested; interest income and expense relating to pension assets and liabilities and lease interest expense under IFRS 16; net foreign exchange gains or losses on financial assets or liabilities; unrealised market or fair value gains or losses on financial assets or liabilities, including contingent consideration; and gains and losses on hedging instruments that are recognised in the income statement. Interest income and interest expense are recognised as they accrue using the effective interest rate method. As permitted by IAS 7, interest paid is classified within operating cash flows and interest received is classified within investing cash flows.

Trade and other receivables

Trade and other receivables are recognised initially at fair value and subsequently at amortised cost less impairment losses (including bad debt provision).

Cash and cash equivalents and net debt

Cash and cash equivalents on the balance sheet comprise cash at bank and in hand and short-term deposits with original maturities of less than 90 days which are subject to an insignificant risk of changes in value. Current assets include deposits with maturities exceeding 90 days. In the consolidated statement of cash flows, net cash and cash equivalents comprise cash and cash equivalents, as defined above, net of bank overdrafts. Net financial debt comprises borrowings less cash and cash equivalents and total net debt is net financial debt plus the IFRS 16 lease liability.

Non-derivative financial liabilities

Trade and other payables are recognised initially at fair value and subsequently at their amortised cost.

Interest-bearing borrowings are initially recognised at fair value less transaction costs. Subsequent to initial recognition, interest-bearing borrowings are stated at amortised cost with any difference between cost and redemption value being recognised in the income statement over the period of the borrowings on an effective interest basis.

Put options held by non-controlling interests that arise on acquisition are recognised initially at the present value of the redemption amount. They are subsequently measured at amortised cost using the effective interest method. The discount is unwound through SDIs as a finance charge.

Derivative financial instruments

The Group uses derivative financial instruments, including cross currency interest rate swaps and foreign currency forwards, to hedge economically its exposure to foreign exchange risks. In accordance with its treasury policy, the Group does not hold or issue derivative financial instruments for speculative purposes.

Derivative financial instruments are recognised initially and subsequently at fair value; attributable transaction costs are recognised in profit or loss when incurred. The gain or loss on remeasurement to fair value at each period end is recognised immediately in the income statement except where derivatives qualify for hedge accounting.

The fair value of cross currency interest rate swaps is estimated using the present value of the estimated future cash flows based on observable yield curves.

The fair value of foreign currency forwards is estimated using present value of future cash flows based on the foreign exchange rates at the balance sheet date.

Hedging

Hedge of monetary assets and liabilities

Where a derivative financial instrument is used economically to hedge the foreign exchange exposure of a recognised monetary asset or liability, no hedge accounting is applied and any gain or loss on the hedging instrument is recognised in the income statement in the same caption as the foreign exchange on the related item.

Hedge of net investment in foreign operations

The Group is exposed to foreign exchange risk exposure arising from its net investment in foreign currency operations and net assets. To the extent that the Group has debt, it is held in currencies that hedge the foreign exchange risks from the Group's net investments, or cross currency interest rate swaps are used to achieve the same objective.

The portion of the gain or loss on an instrument designated as a hedge of a net investment in a foreign operation that is determined to be an effective hedge is recognised directly in equity in the translation reserve. The value in relation to the hedge instrument that is held within the cumulative foreign currency translation reserve is recycled through the income statement when the hedged subsidiary is disposed of. If the instrument is no longer deemed effective, then future movements in fair value are posted to the income statement.

Cash flow hedges

Cash flow hedges comprise derivative financial instruments designated in a hedging relationship to manage interest rate risk and foreign exchange risk to which the cash flows of certain assets and liabilities are exposed. The Group is exposed to the variability in cash flows arising from the foreign exchange risk exposures. In accordance with the Group's hedging strategy, the Group has cross currency interest rate swaps designated as cash flow hedges.

The effective portion of changes in the fair value of a derivative that is designated and qualifies for hedge accounting is recognised in other comprehensive income. The value in relation to the hedge instrument that is held within the cumulative cash flow hedge reserve (disclosed within other reserves) is recycled through the income statement when the hedged item impacts the income statement. If the instrument is no longer deemed effective, then future movements in fair value are posted to the income statement.

14 Borrowings and financial instruments Continued

Impairment

A financial asset is assessed for impairment at each reporting date by application of an expected loss model in line with IFRS 9 requirements.

Net financing costs

Net financing costs are shown below:

Recognised in income statement	2024 £m	2023 £m
Finance income		
Interest on bank balances	2.5	3.8
Total finance income	2.5	3.8
Finance expense		
Interest on borrowings	(30.5)	(33.6)

Debt falling due:				
In one year or less			94.8	96.8
Between one and two years			158.6	93.2
Between two and five years			455.1	464.6
Over five years			127.8	254.6
Total borrowings			836.3	909.2

Description of borrowings

Total undrawn committed borrowing facilities as at 31 December 2024 were £655.7m (2023: £664.3m).

US\$850m revolving credit facility

The Group has a US\$850m multi-currency revolving credit facility, which is the Group's principal facility and in December 2021 its maturity was extended from 2026 to 2027. Advances under the facility bear interest at a rate equal to a risk-free rate, or their local currency equivalent, plus a margin, depending on the Group's financial leverage. Drawings under this facility at 31 December 2024 were £20.0m (2023: £nil).

14 Borrowings and financial instruments Continued

Private placement bonds

In October 2011 the Group issued US\$140m of senior notes repaid on 18 January 2022 at a fixed annual interest rate of 3.75% and US\$105m repaid on 18 January 2024 at a fixed annual interest rate of 3.85%, funded from the existing revolving credit facility.

In February 2013 the Group issued US\$80m of senior notes. These notes were issued in two tranches, with US\$40m repaid on 14 February 2023 at a fixed annual interest rate of 3.10% and US\$40m repaid on 14 February 2025 at a fixed annual interest rate of 3.25%.

In July 2014 the Group issued US\$110m of senior notes. These notes were issued in four tranches with US\$15m repaid on 31 July 2021 at a fixed annual interest rate of 3.37%, US\$20m repaid on 02 July 2024 at a fixed annual interest rate of 3.86%, US\$60m repayable on 31 October 2026 at a fixed annual interest rate of 4.05% and US\$15m repayable on 31 December 2026 at a fixed annual interest rate of 4.10%.

In December 2020 the Group issued US\$200m of senior notes. These notes were issued in two tranches with US\$120m repaid on 2 December 2023 at a fixed annual interest rate of 1.97% and US\$80m repayable on 2 December 2025 at a fixed annual interest rate of 2.08%.

In December 2021 the Group issued US\$640m of senior notes. These notes were issued in four tranches with US\$150m repayable on 13 January 2027 at a fixed annual interest rate of 2.24%, US\$165m repayable on 15 March 2028 at a fixed annual interest rate of 2.33%, US\$165m repayable on 15 March 2029 at a fixed annual interest rate of 2.47% and US\$160m repayable on 15 March 2030 at a fixed annual interest rate of 2.54%.

In December 2023 the Group issued EUR€185m of senior notes. These notes were issued in three tranches with EUR€120m repayable on 21 December 2026 at a fixed annual interest rate of 3.94%, EUR€25m repayable on 21 December 2027 at a fixed annual interest rate of 3.89% and EUR€40m repayable on 21 December 2028 at a fixed annual interest rate of 3.88%.

Lease liabilities

Undiscounted lease liabilities are split into current and non-current as outlined below:

	2024 £m	2023 £m
Analysis of lease liabilities falling due:		
Current:		
Repayable in less than 1 year	78.5	79.9
Non-current:		
Repayable in 1–2 years	57.6	62.2
Repayable in 2–5 years	103.1	104.4
Repayable in more than 5 years	137.5	145.6
Total lease liabilities	376.7	392.1

Financial risks

Details of the Group's treasury controls, exposures and the policies and processes for managing capital and credit, liquidity, interest rate and currency risk are set out below and in the Financial review in Report 1 on pages 1.34 to 1.39.

Credit risk

Exposure to credit risk

Credit risks arise mainly from the possibility that customers may not be able to settle their obligations as agreed. The Group monitors the creditworthiness of customers on an ongoing basis. The Group's credit risk is diversified due to the large number of entities, industries and regions that make up the Group's customer base.

The carrying amount of financial assets represents the maximum credit exposure. At the reporting date this was as follows:

	2024 £m	2023 £m
Trade receivables, net of allowance (note 11)	529.4	526.6
Cash and cash equivalents	336.5	298.6
Total	865.9	825.2

The maximum exposure to credit risk for trade receivables at the reporting date by geographic region was as follows:

	2024 £m	2023 £m
Asia Pacific	140.3	135.2
Americas	206.8	208.2
Europe, Middle East and Africa	182.3	183.2
Total	529.4	526.6

Counterparty risk

Cash and cash equivalents and available borrowing facilities are at risk in the event that the counterparty is not able to meet its obligations in regard to the cash held or facilities available to the Group. The Group also enters into transactions with counterparties in relation to derivative financial instruments. If the counterparty was not able to meet its obligations, the Group may be exposed to additional foreign currency or interest rate risk. Counterparty credit risk inherent in all hedge relationships is monitored throughout the period of the hedge but this risk is not expected to be significant.

The Group, wherever possible, enters into arrangements with counterparties who have a robust credit standing, which the Group defines as a financial institution with a credit rating of at least investment grade. The Group has existing relationships with a number of banks that meet this criterion, and seeks to use their services wherever possible while avoiding excessive concentration of credit risk. Given the diverse geographic nature of the Group's activities, it is not always possible to use a relationship bank. Therefore the Group has set limits on the level of deposits to be held at non-relationship banks to minimise the risk to the Group. It is also Group policy to remit any excess funds from local entities back to Intertek Group Treasury in the UK. Given the controls in place and based on a current assessment of our banking relationships, management does not expect any counterparty to fail to meet its obligations.

14 Borrowings and financial instruments Continued

Liquidity risk

Liquidity risk is the risk that the Group will not be able to meet its obligations as and when they fall due.

The Group's policy is to:

- ensure sufficient liquidity is available to Group companies in the amounts, currencies and locations required to support the Group's operations; and
- ensure the Group has adequate available sources of funding to protect against unforeseen internal and external events.

To ensure this policy is met, the Group monitors cash balances daily, projects cash requirements on a rolling basis and funds itself using debt instruments with a range of maturities.

The undiscounted contractual cash flows for the following financial liabilities/(assets) including interest (for floating rate instruments, interest payments are based on the interest rate at 31 December) are:

2024	Carrying amount £m	Contractual cash flows £m	6 months or less £m	6-12 months £m	1-2 years £m	2-5 years £m	More than 5 years £m

Interest rate risk

The Group's objective is to manage the risk to the business from movements in interest rates, and to provide stability and predictability of the near-term (12-month horizon) interest expense. To achieve this, the Group uses floating rate bank debt facilities, fixed US private placements and cross currency interest rate swaps.

Sensitivity

At 31 December 2024, it is estimated that the impact on variable rate net debt of a general increase of 3% in interest rates would be a decrease in the Group's profit before tax of approximately £7.6m (2023: £8.9m). This analysis assumes all other variables remain constant.

14 Borrowings and financial instruments Continued

Foreign currency risk

The Group's objective in managing foreign currency risk is to safeguard the Group's financial assets from economic loss due to fluctuations in foreign currencies, and to protect margins on cross currency contracts and operations. To achieve this, the Group's policy is to hedge its foreign currency exposures where appropriate.

The net assets of foreign subsidiaries represent a significant portion of the Group's shareholders' funds, and a substantial percentage of the Group's revenue and operating costs are incurred in currencies other than sterling. Due to the high proportion of international activity, the Group's profit is exposed to exchange rate fluctuations. Two types of risk arise as a result: (i) translation risk, that is, the risk of adverse currency fluctuations in the translation of foreign currency operations and foreign assets and liabilities into sterling; and (ii) transaction risk, that is, the risk that currency fluctuations will have a negative effect on the value of the Group's commercial cash flows in various currencies.

The foreign currency profiles of cash, trade receivables and payables subject to translation risk and transaction risk, at the reporting date, were as follows:

	Carrying amount £m	Sterling £m	US dollar £m	Chinese renminbi £m	Hong Kong dollar £m	Other currencies £m
2024						
Cash	336.5	3.7	64.9	67.8	0.8	199.3
Trade receivables (note 11)	529.4	36.7	238.4	37.3	6.5	210.5
Trade payables (note 12)	223.5	25.3	74.0	31.5	2.6	90.1
	Carrying amount £m	Sterling £m	US dollar £m	Chinese renminbi £m	Hong Kong dollar £m	Other currencies £m
2023

Trade receivables (note 11)	526.6	41.4	258.9	36.1	6.1	184.1
Trade payables (note 12)	205.3	22.3	75.5	22.4	2.4	82.7

Recognised assets and liabilities

Changes in the fair value of foreign currency forwards that economically hedge monetary assets and liabilities in foreign currencies, and for which no hedge accounting is applied, are recognised in the income statement.

Cash flow hedge

The Group held a US\$40m fixed interest rate USD private placement bond which matured in February 2025 and holds a US\$80m fixed interest rate USD private placement bond maturing in December 2025. The nominal amount of these loans as at 31 December 2024 was £95.4m (2023: £93.8m).

The bonds were hedged using US\$40m USD/CNH fixed-to-fixed cross currency swaps which matured in February 2025, and holds a US\$80m USD/CNH fixed-to-fixed cross currency swaps maturing in December 2025.

The cross currency interest rate swaps were bifurcated into two relationships: 1) A cash flow hedge of foreign currency risk on US\$120m borrowings; and 2) A net investment hedge of CNH 876.4m net assets of the Group. The weighted average exchange rates for the cross currency interest rates swaps were GBP/USD 1.2300 and GBP/CNH 8.9790.

The timings of the cash flows on both the hedging instrument and the borrowings are expected to match since the maturity profile and coupon profile for bond and hedge matches. In 2024, £1.9m gain (2023: £3.3m loss) of the cash flow hedge reserve was recycled through to the income statement to offset the impact of the hedged US\$40m and US\$80m bond. The remaining balance of the cash flow hedge reserve is expected to be recycled through to the income statement up to the expiry of the bonds in February 2025 and December 2025 respectively.

The Group holds a EUR€120m fixed interest rate EUR private placement bond maturing in December 2026. The nominal amount of the loan as at 31 December 2024 was £99.5m (2023: £104.1m).

A EUR€40m portion of the bond is hedged using EUR€40m EUR/CNH fixed-to-fixed cross currency swaps maturing in December 2026.

The cross currency interest rate swaps were bifurcated into two relationships: 1) A cash flow hedge of foreign currency risk on EUR€40m borrowings; and 2) A net investment hedge of CNH 310.2m net assets of the Group. The weighted average exchange rates for the cross currency interest rates swaps were GBP/EUR 1.19 and GBP/CNH 9.26.

The timings of the cash flows on both the hedging instrument and the borrowings are expected to match since the maturity profile and coupon profile for bond and hedge matches. In 2024, £0.2m loss of the cash flow hedge reserve was recycled through to the income statement to offset the impact of the hedged portion of the EUR€120m bond. The remaining balance of the cash flow hedge reserve is expected to be recycled through to the income statement up to the expiry of the bond in December 2026.

Hedge of net investment in foreign operations

The Group's foreign currency denominated loans are designated as a hedge to protect the same amount of net investment in the Group's foreign currency operations and net assets, against adverse changes in exchange rates.

The Group is exposed to foreign exchange risk exposure arising from its net investment in foreign currency operations and net assets. The Group uses a combination of debt and cross currency interest rate swaps to hedge foreign exchange risks. The Group's foreign currency denominated loans are designated as a hedge to protect the same amount of net investment in the Group's foreign currency operations and net assets, against adverse changes in exchange rates. The nominal amount of these loans as at 31 December 2024 was £688.5m (2023: £817.0m).

The Group's cross currency interest rate swaps are designated as hedge to protect the same amount of net investment in the Group's CNY net assets, against adverse changes in exchange rates. The nominal amount of these cross currency interest rates as at 31 December 2024 was £129.3m (2023: £93.8m).

14 Borrowings and financial instruments Continued

A foreign exchange gain of £1.7m (2023: £58.8m foreign exchange gain) was recognised in the translation reserve in equity, reflecting the translation of the Group's foreign currency denominated loans to sterling and the impact of changes in fair value of the foreign currency forwards. The weighted average exchange rates of the borrowings designated as net investment hedge was GBP/USD 1.3690 and GBP/EUR 1.1525. The Group has the following hedging instruments:

2024	Other comprehensive income

Foreign currency borrowings - discontinued	-	-	(195.3)	-	-	3.7	(191.6)
		910.8	(358.6)	55.4	3.3	-	(299.9)

The foreign currency forwards previously designated in discontinued hedge relationships were disclosed within other receivables in the statement of financial position. The cross currency interest rate swaps designated in hedge relationships are disclosed within other payables in the statement of financial position.

Foreign currency denominated loans and their corresponding hedged items are matched and the Group expects highly effective hedging relationships. The change in value of the hedged item is used as the basis for recognising hedge ineffectiveness for the period. Net ineffectiveness on the net investment hedges recognised in the income statement was £0.5m (2023: £nil).

Hedge ineffectiveness may occur if there are insufficient net assets in foreign currency to match hedging instruments in the relevant currency.

The hedge ratio for each designation will be established by comparing the quantity of the hedging instrument and the quantity of the hedged item to determine their relative weighting; for all of the Group's existing hedge relationships the hedge ratio has been determined as 1:1.

14 Borrowings and financial instruments Continued

The carrying values of the hedging instruments; US\$835.0m senior notes and EUR€185.0m senior notes are included within borrowings within the statement of financial position.

Fair value gains and losses on the hedging instruments designated in the cash flow and net investment hedges have been presented as 'fair value on cash flow hedges' and 'net exchange on hedges of net investments in foreign operations' respectively within the statement of other comprehensive income.

Foreign exchange gains of £1.7m (2023: £3.3m loss) recycled from the cash flow hedge reserve are presented in interest on borrowings within finance expenses in the income statement.

Sensitivity

It is estimated that an increase of 10% in the value of sterling against the US dollar and Chinese renminbi (the main currencies impacting the Group) would have decreased the Group's profit before tax for 2024 by approximately £26.0m (2023: £22.6m decrease). This analysis assumes all other variables remain constant.

It is estimated that an increase of 10% in the value of sterling against the currencies of the hedging instruments would have increased OCI by approximately £73.2m (2023: £83.0m) which would be offset by the retranslation of the Group's investment in foreign operations in the same currencies. This analysis assumes all other variables remain constant.

Fair values

The table below provides a comparison of book values and corresponding fair values of the following Group's financial instruments by class.

	Book value 2024 £m	Fair value 2024 £m	Book value 2023 £m	Fair value 2023 £m
Financial assets				
Cash and cash equivalents	336.5	336.5	298.6	298.6
Trade receivables (note 11)	529.4	529.4	526.6	526.6
Foreign currency forwards*	2.8	2.8	0.3	0.3

Trade payables (note 12)	223.5	223.5	205.3	205.3
Foreign currency forwards*	2.3	2.3	0.7	0.7
Cross currency interest rate swaps*	-	-	1.7	1.7
Contingent consideration**	46.8	46.8	35.6	35.6
Total financial liabilities	1,108.9	1,087.3	1,152.5	1,060.6

* Cross currency interest rate swaps and foreign currency forwards are categorised as Level 2, under which the fair value is measured using inputs other than quoted prices observable for the asset or liability, either directly or indirectly.

** Contingent consideration is categorised as Level 3 under which the fair value is measured using unobservable inputs - being the EBITDA performance of the acquired companies.

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices).

Level 3: Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs).

15 Capital and reserves

Accounting policy

Dividends

Interim dividends are recognised as a movement in equity when they are paid. Final dividends are reported as a movement in equity in the year in which they are approved by the shareholders.

Own shares held by the Employee Share Ownership Trust ('ESOT')

Transactions of the Group-sponsored ESOT are included in the Group financial statements. In particular, the Trust's purchases of shares in the Company are debited directly in equity to retained earnings.

Share capital

Group and Company	2024 number	2024 £m	2023 £m
Allotted, called up and fully paid:			
Ordinary shares of 1p each at start of year	161,393,127	1.6	1.6
Share Awards	-	-	-
Ordinary shares of 1p each at end of year	161,393,127	1.6	1.6
Shares classified in shareholders' funds		1.6	1.6

The holders of ordinary shares are entitled to receive dividends and are entitled to vote at general meetings of the Company.

During the year, the Company issued nil (2023: nil) ordinary shares in respect of all share plans.

Purchase of own shares for trust

During the year ended 31 December 2024, the Company financed the purchase of 518,500 (2023: 278,751) of its own shares with an aggregate nominal value of £5,185 (2023: £2,788) for £24.7m (2023: £11.6m) which was charged to retained earnings in equity and was held by the ESOT. This trust is managed by an independent offshore trustee. During the year, 258,832 shares were utilised to satisfy the vesting of share awards (note 17). At 31 December 2024, the ESOT held 409,467 shares (2023: 149,799 shares) with an aggregate nominal value of £4,095 (2023: £1,498). The associated cash outflow of £24.7m (2023: £11.6m) has been presented as a financing cash flow.

15 Capital and reserves Continued

	2024 £m	2024 Pence per share	2023 £m	2023 Pence per share
Dividends				
Amounts recognised as distributions to equity holders:				
Final dividend for the year ended 31 December 2022	-	-	115.5	71.6
Interim dividend for the year ended 31 December 2023	-	-	60.8	37.7
Final dividend for the year ended 31 December 2023	119.3	74.0	-	-
Interim dividend for the year ended 31 December 2024	86.8	53.9	-	-
Dividends paid	206.1	127.9	176.3	109.3

After the reporting date, the Directors proposed a final dividend of 102.6p per share in respect of the year ended 31 December 2024, which is expected to amount to £166.6m and approved a share buyback of £350m. The dividend is subject to approval by shareholders at the Annual General Meeting and therefore, in accordance with IAS 10 *Events After the Reporting Date*, it has not been included as a liability in these financial statements. If approved, the final dividend will be paid to shareholders on 20 June 2025.

Reserves

Translation reserve

The translation reserve comprises foreign currency differences arising from the translation of the financial statements of foreign operations as well as the translation of liabilities that hedge the Group's net investment in foreign operations.

Other

This reserve includes a merger difference that arose in 2002 on the conversion of share warrants into share capital, as well as the cash flow hedge reserve.

16 Employee benefits

Accounting policy

Pension schemes

Defined contribution plans

A defined contribution plan is a post-employment benefit plan under which an entity pays fixed contributions into a separate entity and will have no legal or constructive obligation to pay further amounts. Obligations for contributions to defined contribution pension plans are recognised as an employee benefit expense in the income statement as incurred.

Defined benefit plans

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan.

The Group's net obligation in respect of material defined benefit pension plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in return for their service in the current and prior years; that benefit is discounted to determine its present value. The fair value of any plan assets is deducted.

In calculating the defined benefit surplus or deficit, the discount rate is the yield at the reporting date on AA credit-rated bonds that have maturity dates approximating the terms of the Group's obligations and that are denominated in the same currency in which the benefits are expected to be paid. The calculation is performed annually by a qualified actuary using the projected unit credit method.

The increase in the present value of the liabilities expected to arise from the employees' services in the accounting period is charged to the operating profit in the income statement. The expected return on the schemes' assets and the interest on the present value of the schemes' liabilities, during the accounting period, are shown as finance income and finance expense, respectively.

The Group operates a number of pension schemes throughout the world. In most locations, these are defined contribution arrangements. However, there are significant defined benefit schemes in the United Kingdom and Switzerland. The United Kingdom Scheme is funded, with assets held in separate trustee-administered funds and the Switzerland Scheme is an insured scheme. The scheme in the United Kingdom was closed to new entrants in 2002. Other funded defined benefit schemes are not considered to be material and are therefore accounted for as if they were defined contribution schemes.

In line with IAS 19 and IFRIC 14, if a scheme has a surplus this is recognised on the statement of financial position if the economic benefit is available to the Group as a result of the surplus. Economic benefit is defined as when an entity has an unconditional right to a refund from the scheme whilst the scheme is ongoing; or assuming the gradual settlement of the scheme liabilities over time until all members have left the scheme/died; or assuming the full settlement of the scheme's liabilities in a single event. In the event of a surplus, the relevant scheme rules will be reviewed in line with IFRIC 14 and a legal opinion obtained to identify if the surplus can be recognised by the Group.

The Group recognises all actuarial remeasurements in each year in equity through the consolidated statement of comprehensive income.

Total pension cost

The total pension cost included in operating profit for the Group was:

	2024 £m	2023 £m
Defined contribution schemes	(62.1)	(59.8)
Defined benefit schemes – current service cost and administration expenses	(0.4)	(1.2)
Pension cost included in operating profit (note 5)	(62.5)	(61.0)

The pension cost for the defined benefit schemes was assessed in accordance with the advice of qualified actuaries. The last full triennial actuarial valuation of The Intertek Pension Scheme in the United Kingdom ('United Kingdom Scheme') was carried out as at 31 March 2022, and for IAS 19 accounting purposes has been updated to 31 December 2024. The Switzerland Scheme was valued for IAS 19 purposes as at 31 December 2024. The average duration of the schemes' liabilities is 11 years for the United Kingdom Scheme and 16 years for the Switzerland Scheme.

16 Employee benefits Continued

Defined benefit schemes

The cost of defined benefit schemes

The amounts recognised in the income statement were as follows:

	2024 £m	2023 £m
Current and past service cost	(0.4)	(0.8)
Scheme administration expenses	(0.4)	(0.4)
Net pension interest income (note 14)	1.0	1.0
Total income/(charge)	0.2	(0.2)

The current service cost and scheme administration expenses are included in operating costs in the income statement and pension interest cost and interest income are included in net financing costs.

Included in other comprehensive income:

	2024 £m	2023 £m
Remeasurements arising from:		
Demographic assumptions	0.4	0.2
Financial assumptions	8.4	(5.4)
Experience adjustment	0.2	(0.5)
Asset valuation	(5.5)	2.5
Other	0.2	0.6
Total	3.7	(2.6)

Company contributions

In 2022 the Company assessed the triennial actuarial valuation for the United Kingdom Scheme and its impact on the scheme funding plan in 2022 and future years. In 2025 the Group expects to make normal contributions of £0.5m (2024: £0.5m) and a special contribution of £nil (2024: £nil). The next triennial valuation is due to take place as at 31 March 2025 and will include a review of the Company's future contribution requirements.

Pension asset/(liability) for defined benefit schemes

The amounts recognised in the statement of financial position for defined benefit schemes were as follows:

	United Kingdom Scheme £m	Switzerland Scheme £m	Total £m
31 December 2024			
Fair value of scheme assets	107.7	14.4	122.1
Present value of funded defined benefit obligations	(80.5)	(19.6)	(100.1)
Surplus/(deficit) in schemes	27.2	(5.2)	22.0

The fair value changes in the scheme assets are shown below:

	2024 £m	2023 £m
Fair value of scheme assets at 1 January	126.2	121.1
Interest income	5.3	5.5
Normal contributions by the employer	1.2	1.4
Special contributions by the employer	-	-
Contributions by scheme participants	0.5	0.6
Benefits paid	(4.5)	(4.9)
Effect of exchange rate changes on overseas schemes	(0.7)	0.4
Remeasurements	(5.5)	2.5
Scheme administration expenses	(0.4)	(0.4)
Settlements	-	-
Fair value of scheme assets at 31 December	122.1	126.2

Asset allocation

Investment statements were provided by the investment managers which showed that, as at 31 December 2024, the invested assets of the United Kingdom Scheme totalled 107.7m (2023: £111.8m), broken down as follows:

Asset class	United Kingdom Scheme	
	2024 £m	2023 £m
Equities	-	44.5
Property	0.8	3.1
Liability-Driven Investment ('LDI')	-	12.2
Corporate debt instruments	94.1	46.6
Cash	12.8	5.4
Total	107.7	111.8

In 2024, following a review of the Scheme's investment strategy and funding level, the Trustee agreed to changes to the Scheme's asset allocation by class. These changes, approved in May 2024, were implemented by December 2024 to reduce future funding level volatility and de-risk the Scheme's strategy by investing in assets that in aggregate will broadly match movements in liabilities. The change to asset classes did not incur material costs to the Scheme.

The United Kingdom Scheme had bank account assets of £1.1m as at 31 December 2024 (2023: £2.4m).

The United Kingdom Scheme invested assets portfolio comprises of only unquoted assets in 2024, following changes to the Scheme's investment strategy. The value of quoted assets in 2024 was £nil (2023: £11.4m), included within equities in the above table, with the remaining assets being unquoted.

16 Employee benefits Continued

The invested assets of the Switzerland Scheme comprise cash in savings and contribution accounts. The Switzerland Scheme is fully insured.

Changes in the present value of the defined benefit obligations were as follows:

	2024 £m	2023 £m
Defined benefit obligations at 1 January	109.2	102.0
Current and past service cost	0.4	0.8
Interest cost	4.4	4.4
Contributions by scheme participants	0.5	0.7
Benefits paid	(4.5)	(4.9)
Effect of exchange rate changes on overseas schemes	(0.9)	0.5
Remeasurements	(9.0)	5.7
Defined benefit obligations at 31 December	100.1	109.2

Principal actuarial assumptions:

	United Kingdom Scheme		Switzerland Scheme	
	2024 %	2023 %	2024 %	2023 %
Discount rate	5.6	4.6	1.0	1.4
Inflation rate (based on CPI)	2.2	2.05	n/a	n/a
Rate of salary increases	-	-	1.6	1.75
Rate of pension increases:				
CPI subject to a maximum of 5.0% p.a.	2.2	2.1	n/a	n/a
Increases subject to a maximum of 2.5% p.a.	1.8	1.7	n/a	n/a

The Switzerland Scheme is an insured plan.

Life expectancy assumptions at year-end for:

	United Kingdom Scheme		Switzerland Scheme	
	2024	2023	2024	2023
Male aged 40	48.1	48.3	49.6	49.5
Male aged 65	21.4	21.6	22.1	22.0
Female aged 40	50.4	50.4	51.2	51.1
Female aged 65	23.6	23.7	23.9	23.8

The table above shows, for the United Kingdom Scheme, the number of years a male or female is expected to live, assuming they were aged either 40 (and lives to 65) or 65 at 31 December. The mortality tables adopted in 2024 for the United Kingdom Scheme are S3PA tables, based on the CMI 2023 mortality projection model with a 1.25% long-term annual rate for future improvements. In 2023 the S3PA tables were used, based on the CMI 2021 mortality projection model with a 1.25% long-term annual rate for future improvement. For the Switzerland Scheme, the mortality table adopted in 2024 and 2023 is the BVG 2020, an industry standard in Switzerland which is based on statistical evidence of major Switzerland pension funds.

Sensitivity analysis

The table below sets out the sensitivity on the United Kingdom pension assets and liabilities as at 31 December 2024 of the two main assumptions:

Change in assumptions	United Kingdom Scheme	
	Liabilities £m	Increase/ (decrease) in surplus/ deficit £m
No change	80.5	
0.25% rise in discount rate	78.3	(2.2)
0.25% fall in discount rate	82.9	2.4
0.25% rise in inflation	81.8	1.3
0.25% fall in inflation	79.4	(1.1)

The United Kingdom Scheme is also subject to the mortality assumption. If the mortality tables used are rated up/down one year, the value placed on the liabilities increases by £3.0m and decreases by £3.0m, respectively.

Funding arrangements

United Kingdom Scheme

The Trustees use the projected unit credit method with a three-year control period. Currently the scheme members pay contributions at the rate of 8.5% of salary. The employer pays contributions of 18.5% of salary, plus £0.4m per year to fund scheme expenses. The employer has not made any additional contributions in 2024 as a result of the surplus disclosed by the 2022 valuation.

Funding risks

The main risks for the schemes are:

Investment return risk:	If the assets underperform the returns assumed in setting the funding targets then additional contributions may be required at subsequent valuations.
Investment matching risk:	The schemes invest significantly in equities, whereas the funding targets are closely related to the returns on bonds. If equities fall in value relative to the matching asset of bonds, additional contributions may be required.
Longevity risk:	If future improvements in longevity exceed the assumptions made for scheme funding then additional contributions may be required.

16 Employee benefits Continued

Role of third parties

The United Kingdom Scheme is managed by Trustees on behalf of its members. The Trustees take advice from appropriate third parties including investment advisers, actuaries and lawyers as necessary.

Virgin Media case

In June 2023, the High Court handed down a decision in the case of Virgin Media Limited v NTL Pension Trustees II Limited and others relating to the validity of certain historical pension changes due to the lack of actuarial confirmation required by law. In July 2024, the Court of Appeal dismissed the appeal brought by Virgin Media Limited against aspects of the June 2023 decision. The conclusions reached by the court in this case may have implications for other UK defined benefit plans.

The Trustee and the Company have considered the implications of the case for the UK Scheme. Based on the outcome of a legal review of the UK Plan's governing deeds and rules provided by the Trustee's lawyers, additional liabilities arising from the Virgin media case are not highly probable. Based on those findings, the Company has not recognised any additional liabilities as at 31 December 2024. Furthermore, the scheme is sufficiently funded to be able to absorb the impact, if any, without affecting the security of member benefits.

17 Share schemes

Accounting policy

Share-based payment transactions

The share-based compensation plans operated by the Group allow employees to acquire shares of the Company. The fair value of the employee services, received in exchange for the grant of shares, is measured at the grant date and is recognised as an expense with a corresponding increase in equity. The charge is calculated using the Black-Scholes method and expensed to the income statement over the vesting period of the relevant award. The charge for the Deferred Share Awards is adjusted to reflect expected and actual levels of vesting for service conditions. The expense of the LTIP Share Awards is calculated using the Monte Carlo method and the fair value adjusted for the probability of performance conditions being achieved.

Share plans

2021 Long Term Incentive Plan

The Intertek 2021 Long Term Incentive Plan ('2021 Plan') was approved at the 2020 Annual General Meeting as the Intertek 2011 Long Term Incentive Plan was approaching the end of its ten-year life cycle. Deferred Share Awards and LTIP Share Awards have been granted under this plan. The awards made in 2024 were made under the 2021 Plan on 13 March 2024 and 5 June 2024. The awards under these plans vest three years after grant date, subject to fulfilment of the non-market based performance conditions.

Outstanding awards	2024			2023		
	Deferred Share Awards	LTIP Share Awards	Total awards	Deferred Share Awards	LTIP Share Awards	Total awards
At beginning of year	691,514	934,576	1,626,090	674,193	810,416	1,484,609
Granted*	321,594	380,618	702,212	307,630	438,982	746,612
Vested**	(130,508)	(257,349)	(387,857)	(229,836)	(152,017)	(381,853)
Forfeited	(45,346)	(42,453)	(87,799)	(60,473)	(162,805)	(223,278)
At end of year	837,254	1,015,392	1,852,646	691,514	934,576	1,626,090

* Includes 19,080 Deferred Share Awards (2023: 15,317) and 25,273 LTIP Share Awards (2023: 22,907) granted in respect of dividend accruals.

** Of the 387,857 awards vested in 2024, nil were satisfied by the issue of shares and 247,729 by the transfer of shares from the ESOT (see note 15). The balance of 140,128 awards represented a tax liability of £70m (2023: £5.4m) which was settled in cash on behalf of employees by the Group, of which £6.2m was settled by the Company.

Buyout Awards

On 1 April 2021, Jonathan Timmis was granted conditional rights to acquire 39,000 shares under a one-off arrangement as a condition of his recruitment as CFO of the Company, granted under the Long Term Incentive Plan 2021. The award comprised three parts of 13,000 shares, vesting on 1 April 2022, 1 April 2023 and 1 April 2024. Further details are shown in the Remuneration report on pages 2.94 to 2.126 in Report 2.

Deferred Share Plan

Awards may be granted under the Deferred Share Plan ('DSP') to employees of the Group (other than the Executive Directors of the Company) selected by the Remuneration Committee over existing, issued ordinary shares of the Company only. The DSP was adopted primarily to allow for the deferral of a proportion of selected employees' annual bonus into shares in the Company but may also be used for the grant of other awards (such as incentive awards and buyout awards for key employees) in circumstances that the Remuneration Committee deems appropriate. Awards will normally have a three-year vesting period. Awards may be made subject to performance conditions and are subject to normal good and bad leaver provisions and malus and clawback.

Outstanding awards	2024		2023	
	Deferred Share Awards	Total awards	Deferred Share Awards	Total awards
At beginning of year	30,883	30,883	37,804	37,804
Granted*	4,747	4,747	14,315	14,315
Vested**	(19,370)	(19,370)	(14,827)	(14,827)
Forfeited	-	-	(6,409)	(6,409)
At end of year	16,260	16,260	30,883	30,883

* Includes 347 Deferred Share Awards (2023: 815) granted in respect of dividend accruals.

** Of the 19,370 awards vested in 2024, 11,103 were satisfied by the transfer of shares from the ESOT (see note 15). The balance of 8,267 awards represented a tax liability of £0.4m (2023: £0.2m) which was settled in cash on behalf of employees by the Group, of which £0.4m was settled by the Company.

17 Share schemes Continued

Equity-settled transactions

During the year ended 31 December 2024, the Group recognised an expense of £24.4m (2023: £21.2m). The weighted average fair values and the assumptions used in their calculations are set out below:

	2024 Awards		
	Deferred Share Awards	Share Awards	LTIP Share Awards
Fair value at measurement date (pence)	4,866	4,994	4,271
Share price (pence)	4,866	4,994	5,010
Share price volatility	-	-	26.6%
Risk free rate	-	-	3.9%
Time to maturity (years)	1-3	3	3

	2023 Awards		
	Deferred Share Awards	Share Awards	LTIP Share Awards
Fair value at measurement date (pence)	4,384	4,057	3,487
Share price (pence)	4,384	4,057	4,050
Share price volatility	-	-	27.6%
Risk-free rate	-	-	3.3%
Time to maturity (years)	1-3	3	3

The weighted average exercise prices of all share awards in the year are £nil (2023: £nil).

All Share Awards are granted under a service condition. Such condition is not taken into account in the fair value measurement at grant date. From 2020 the LTIP Share Awards were granted under performance-related non-market conditions only.

18 Subsequent events

On 14 February 2025, funded from the existing revolving facility, a US\$40m senior note at a fixed annual interest rate of 3.25% was repaid.

19 Capital management

The Directors determine the appropriate capital structure of Intertek; specifically how much capital is raised from shareholders (equity) and how much is borrowed from financial institutions (debt) in order to finance the Group's activities. These activities include ongoing operations as well as acquisitions as described in note 10.

The Group's policy is to maintain a robust capital base (including cash and debt) to ensure the market and key stakeholders retain confidence in the capital profile. Debt capital is monitored by Group Treasury assessing the liquidity buffer on a short- and longer-term basis as discussed in note 14. Net financial debt has decreased from £610.6m at 31 December 2023 to £499.8m at 31 December 2024. The Group has a strong balance sheet with net financial debt to EBITDA of 0.7x (2023: 0.8x).

During 2024, the Group has continued the working capital focus, and through disciplined performance management, working capital has reduced by £17.1m to negative £95.9m. Working capital is defined on page 3.03.

The Group uses key performance indicators, including return on invested capital ('ROIC') and adjusted diluted earnings per share to monitor the capital position of the Group to ensure it is being utilised effectively. The rate of ROIC, defined as adjusted operating profit less adjusted taxes divided by invested capital, measures how effectively the Group generates profit from its invested capital. This is a key measure to assess the efficiency of investment decisions and is also an important criterion in the decision-making process. ROIC in 2024 was 22.4% (2023: 20.5%). Adjusted diluted earnings per share is a key measure of value creation for the Board and for shareholders and in 2024 was 240.6p (2023: 223.0p).

The dividend policy also forms part of the Board's capital management policy, and the Board ensures there is appropriate earnings cover for the dividend proposed at both the interim and year-end. Our current dividend policy aims to deliver sustainable dividend growth over time, based on a target dividend payout ratio of c.65%. Reflecting the Group's strong cash generation in 2024, the recommended final dividend is 102.6p bringing the full year dividend to 156.5p, which is a year-on-year increase of 40.1%, and reflects a dividend payout ratio of 65%.

20 Non-controlling interest

Accounting policy

Acquisitions of non-controlling interests are accounted for as transactions with owners in their capacity as owners and therefore no goodwill is recognised as a result of such transactions.

Non-controlling interest

An analysis of the movement in non-controlling interest is shown below:

	2024 £m	2023 £m
At 1 January	36.7	34.0
Exchange adjustments	0.6	(2.2)
Share of profit for the year	21.8	20.7
Adjustment arising from changes in non-controlling interest	-	(0.7)
Dividends paid to non-controlling interest	(16.1)	(15.1)
At 31 December	43.0	36.7

21 Related parties

Identity of related parties

The Group has a related party relationship with its key management. Balances and transactions between the Company and its subsidiaries and between subsidiaries have been eliminated on consolidation and are not discussed in this note.

Transactions with key management personnel

Key management personnel compensation, including the Group's Directors, is shown in the table below:

	2024 £m	2023 £m
Short-term benefits	14.0	12.5
Post-employment benefits	0.6	0.6
Equity-settled transactions	13.5	10.8
Total	28.1	23.9

More detailed information concerning Directors' remuneration, shareholdings, pension entitlements and other long-term incentive plans is shown in the audited parts of the Remuneration report in Report 2 pages 2.115 to 2.125. Apart from the above, no member of key management had a personal interest in any business transactions of the Group.

Listed within Company financial statement- Note I, are subsidiaries controlled and consolidated by the Group, where the Directors have taken the exemption from having an audit of its financial statements for the year ended 31 December 2024. This exemption is taken in accordance with Section 479A of the Companies Act 2006.

22 Contingent liabilities

	2024 £m	2023 £m
Guarantees, letters of credit and performance bonds	46.7	41.1

Litigation

The Group is involved in various claims and lawsuits incidental to the ordinary course of its business, including claims for damages, negligence and commercial disputes regarding inspection and testing, and disputes with employees and former employees. The Group is not currently party to any legal proceedings other than ordinary litigation incidental to the conduct of business. These claims are not currently expected to result in meaningful costs and liabilities to the Group. The Group maintains appropriate insurance cover to provide protection from the small number of significant claims it is subject to from time to time.

Tax

The Group operates in more than 100 countries and with complex tax laws and regulations. At any point in time it is normal for there to be a number of open years which may be subject to enquiry by local authorities. In some jurisdictions the Group receives tax incentives (see note 6) which are subject to renewal and review and reduce the amount of tax payable. Where the effect of the laws and regulations is unclear, estimates are used in determining the liability for the tax to be paid. The Group considers the estimates, assumptions and judgements to be reasonable but this can involve complex issues which may take a number of years to resolve.

23 Principal Group companies

The principal subsidiaries whose results or financial position, in the opinion of the Directors, principally affect the figures of the Group have been shown below. All the subsidiaries shown were consolidated with Intertek Group plc as at 31 December 2024. Unless otherwise stated, these entities are wholly owned indirect subsidiaries and the address of the registered office is Academy Place, 1–9 Brook Street, Brentwood, Essex, CM14 5NQ, United Kingdom.

(A) Accounting policies – Company

The following accounting policies have been applied consistently in dealing with items which are considered material in relation to the Company's financial statements.

Basis of preparation

These financial statements have been prepared in accordance with Financial Reporting Standard 101 *Reduced Disclosure Framework* (FRS 101) in conformity with the requirements of the Companies Act 2006.

These financial statements have been prepared on a historical cost basis. The Company continues to adopt the going concern basis of accounting in preparing these financial statements. Further detail on going concern can be found in note 1 to the Group financial statements.

In preparing these financial statements, the Company applies the recognition, measurement and disclosure requirements of UK-adopted International Accounting Standards ('Adopted IFRSs'), but makes amendments where necessary in order to comply with Companies Act 2006 and has set out below where advantage of the FRS 101 disclosure exemptions has been taken.

These financial statements are presented in sterling, which is the functional currency of the Company. All information presented in sterling has been rounded to the nearest £0.1m.

In these financial statements, the Company has applied the exemptions available under FRS 101 in respect of the following disclosures:

- a cash flow statement and related notes;
- comparative period reconciliations for share capital;
- disclosures in respect of transactions with wholly owned subsidiaries;
- disclosures in respect of capital management;
- the effects of new, but not yet effective, IFRSs;
- an additional balance sheet for the beginning of the earliest comparative period following the retrospective change in accounting policy;
- disclosures in respect of the compensation of Key Management Personnel; and
- certain disclosures required by IFRS 13 *Fair Value Measurement* and the disclosures required by IFRS 7 *Financial Instrument Disclosures* on the basis that the consolidated financial statements include the equivalent disclosures.

As the consolidated financial statements include the equivalent disclosures, the Company has also taken the exemptions under FRS 101 available in respect of IFRS 2 *Share-Based Payment* in respect of Group-settled share-based payments.

Under Section 408 of the Companies Act 2006 the Company is exempt from the requirement to present its own profit and loss account.

The accounting policies set out below have, unless otherwise stated, been applied consistently to all periods presented in these financial statements.

Foreign currencies

Transactions in foreign currencies are recorded to the Company's functional currency, sterling, using the rate of exchange ruling at the date of the transaction. Monetary assets and liabilities in foreign currencies are translated into sterling at the rates of exchange prevailing at the balance sheet date. All foreign exchange differences are taken to the profit and loss account.

Taxation

Tax on the profit or loss for the year comprises current and deferred tax. Tax is recognised in the profit and loss account except to the extent that it relates to items recognised directly in equity or other comprehensive income, in which case it is recognised directly in equity or other comprehensive income.

Current tax is the expected tax payable or receivable on the taxable income or loss for the year, using tax rates enacted or substantively enacted at the balance sheet date, and any adjustment to tax payable in respect of previous years.

Deferred tax is provided on temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. The following temporary differences are not provided for: the initial recognition of goodwill; the initial recognition of assets or liabilities that affect neither accounting nor taxable profit other than in a business combination; and differences relating to investments in subsidiaries to the extent that they will probably not reverse in the foreseeable future. The amount of deferred tax provided is based on the expected manner of realisation or settlement of the carrying amount of assets and liabilities, using tax rates enacted or substantively enacted at the balance sheet date.

A deferred tax asset is recognised only to the extent that it is probable that future taxable profits will be available against which the temporary difference can be utilised.

Dividends on shares presented within shareholders' funds

Dividend income is recognised in profit or loss on the date that the Company's right to receive payment is established. Dividends unpaid at the balance sheet date are only recognised as a liability at that date to the extent that they are appropriately authorised and are no longer at the discretion of the Company. Unpaid dividends that do not meet these criteria are disclosed in the notes to the financial statements.

Investments in subsidiaries

Investments in subsidiaries are stated at cost less any provisions for impairment.

Intercompany financial guarantees

When the Company enters into financial guarantee contracts to guarantee the indebtedness of other companies in the Group, upon the adoption of IFRS17 effective from 1 January 2023, the Company has elected to recognise these under IFRS9. On this basis, the Company recognises these guarantees at fair value upon recognition, on a contract by contract basis. Subsequent remeasurement is performed at each reporting period and recorded at the higher of the loss allowance under expected credit loss and the initial fair value less any income recognised.

Share-based payments

Intertek Group plc runs a share ownership programme that allows Group employees to acquire shares in the Company. Details of the share schemes are given in note 17 of the Group financial statements.

(A) Accounting policies - Company Continued

Investments impairment review

Interests in subsidiaries, associates and jointly controlled entities are initially measured at cost and subsequently measured at cost less any accumulated impairment losses. Estimates are used in determining the level of investment that will not, in the opinion of the Directors, be recoverable.

Recoverability of receivables

Amounts owed by Group undertakings are recognised initially at the value of the invoice or loan raised and subsequently at the amounts considered recoverable (amortised cost). Estimates are used in determining the level of receivables that will not, in the opinion of the Directors, be collected. The Company applies the simplified approach permitted by IFRS 9, which requires the use of the lifetime expected loss provision for all receivables. The provision calculations are based on a review of all receivables to see if there are specific circumstances which would render the receivable irrecoverable and therefore require a specific provision.

Significant new accounting policies and standards

No significant new accounting policies or standards were adopted in the year ending 2024.

(B) Profit and loss account

Amounts paid to the Company's auditors and their associates in respect of services to the Company, other than the audit of the Company's financial statements, have not been disclosed as the information is required instead to be disclosed on a consolidated basis. The Company does not have any employees (2023: £nil).

Details of the remuneration of the Directors are set out in the Remuneration report on pages 2.94-2.126 in Report 2.

(C) Use of judgements and estimates

In the application of the Company's accounting policies, the Directors are required to make judgements, estimates and assumptions about the carrying amount of assets and liabilities that are not readily apparent from other sources.

The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised, if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

The assumptions which have a significant risk of causing a material adjustment to the carrying amount of assets and liabilities are outlined below. There are no critical estimates which have a significant risk of causing a material adjustment to the carrying amount of assets and liabilities in the next financial year.

Key estimations and uncertainties

There are no critical accounting judgements or estimates.

(D) Dividends

The aggregate amount of dividends comprises:

	2024 £m	2023 £m
Final dividend paid in respect of prior year but not recognised as a liability in that year	119.3	115.5
Interim dividends paid in respect of the current year	86.8	60.8
Aggregate amount of dividends paid in the financial year	206.1	176.3

The aggregate amount of dividends proposed and recognised as liabilities as at 31 December 2024 is £nil (2023: £nil). The aggregate amount of dividends proposed and not recognised as liabilities as at 31 December 2024 is £166.5m (2023: £120.2m).

(E) Investment in subsidiary undertakings

	2024 £m	2023 £m
Cost and net book value		
At 1 January	360.2	354.3
Additions due to share-based payments	24.4	21.2
Recharges of share-based payments to subsidiaries	(14.7)	(15.3)
At 31 December	369.9	360.2

The Company has made Share Awards to the employees of its directly and indirectly owned subsidiaries, and as such, the Company recognises an increase in the cost of investment in subsidiaries of £24.4m (2023: £21.2m). Details of the principal operating subsidiaries are set out in note 23 to the Group financial statements.

The Company had two direct subsidiary undertakings at 31 December 2024: Intertek Testing Services Holdings Limited and Intertek Holdings Limited, both of which are holding companies, are incorporated in the United Kingdom and registered in England and Wales. All interests are in the ordinary share capital and all are wholly owned. In the opinion of the Directors, the value of the investments in subsidiary undertakings is not less than the amount at which the investments are stated in the balance sheet.

There is no impairment to the carrying value of these investments (2023: £nil).

(F) Debtors

	2024 £m	2023 £m
Amounts owed by Group undertakings	521.5	439.2
Total debtors	521.5	439.2

The amounts owed by Group undertakings are unsecured, have no fixed date of repayment and are repayable on demand. A mixture of the amounts due are interest bearing and interest free.

(G) Creditors due within one year

	2024 £m	2023 £m
Trade and other creditors	5.4	3.1
Income tax payable	2.9	3.1
Amounts owed to Group undertakings	30.2	34.1
Total creditors	38.5	40.3

The amounts owed to Group undertakings are unsecured, have no fixed date of repayment and are repayable on demand. A mixture of the amounts due are interest bearing and interest free.

(H) Statement of changes in equity

Details of share capital are set out in note 15 and details of share-based payments are set out in note 17 to the Group financial statements.

A profit and loss account for Intertek Group plc has not been presented as permitted by Section 408 of the Companies Act 2006. The profit for the financial year, before dividends paid to shareholders of £206.1m (2023: £176.3m), was £310.5m (2023: £193.9m) which was mainly in respect of dividend income in relation to 2024.

The Company has sufficient distributable reserves to pay the 2024 final dividend and the anticipated 2025 interim dividend. When required, the Company can receive additional dividends from its subsidiaries to further increase distributable reserves.

In compliance with section 830 of the Companies Act 2006 sufficient funds have been upstreamed to increase the distributable reserves to support the share buyback announced on page 1.16 in Report 1. Interim accounts will be filed to comply with section 836 of the Companies Act.

The Group settled in cash the tax element of the Share Awards vested in 2024 amounting to £7.4m (2023: £5.6m) of which the Company settled £6.7m (2023: £5.0m).

During the year ended 31 December 2024, the Company purchased, through its Employee Benefit Trust, 548,500 (2023: 278,500) of its own shares with an aggregate nominal value of £5,485 (2023: £2,785) for £24.7m (2023: £11.6m) which was charged to profit and loss reserves.

(I) Related party transactions

Details of related party transactions are set out in note 21 of the Group financial statements.

Listed below are subsidiaries controlled and consolidated by the Group, where the Directors have taken the exemption from having an audit of its financial statements for the year ended 31 December 2024. This exemption is taken in accordance with Section 479A of the Companies Act 2006.

(J) Contingent liabilities

The Company is a member of a group of UK companies that are part of a composite banking cross-guarantee arrangement. This is a joint and several guarantee given by all members of the Intertek UK cash pool, guaranteeing the total gross liability position of the pool which was £3.1m at 31 December 2024 (2023: £10.8m).

From time to time, in the normal course of business, the Company may give guarantees in respect of certain liabilities of subsidiary undertakings. As at 31 December 2024 the value of these guarantees is £nil (2023: £nil).

(K) Subsequent events

Details of post-balance sheet events relevant to the Company and the Group are given in note 18 of the Group financial statements.

Report on the audit of the financial statements

Opinion

In our opinion:

- Intertek Group plc's group financial statements and company financial statements (the "financial statements") give a true and fair view of the state of the group's and of the company's affairs as at 31 December 2024 and of the group's profit and the group's cash flows for the year then ended;
- the group financial statements have been properly prepared in accordance with UK-adopted international accounting standards as applied in accordance with the provisions of the Companies Act 2006;
- the company financial statements have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards, including FRS 101 "Reduced Disclosure Framework", and applicable law); and
- the financial statements have been prepared in accordance with the requirements of the Companies Act 2006.

We have audited the financial statements, included within the Annual Report & Accounts (the "Annual Report"), which comprise: the consolidated statement of financial position and the company balance sheet as at 31 December 2024; the consolidated income statement, the consolidated statement of comprehensive income, the consolidated statement of cash flows, the consolidated statement of changes in equity and the company statement of changes in equity for the year then ended; and the notes to the financial statements, comprising material accounting policy information and other explanatory information.

Our opinion is consistent with our reporting to the Audit Committee.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) ("ISAs (UK)") and applicable law. Our responsibilities under ISAs (UK) are further described in the Auditors' responsibilities for the audit of the financial statements section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We remained independent of the group in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, which includes the FRC's Ethical Standard, as applicable to listed public interest entities, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

To the best of our knowledge and belief, we declare that non-audit services prohibited by the FRC's Ethical Standard were not provided.

Other than those disclosed in the Audit Committee report within the Directors' report, we have provided no non-audit services to the company or its controlled undertakings in the period under audit.

Our audit approach

Overview

Audit scope

- We performed full scope audit procedures over 56 components and specific audit procedures on a further 4 components, covering 21 territories in total.
- Taken together, the entities over which audit work was performed accounted for 73% of the group's revenue and 71% of the group's profit before tax.

Key audit matters

- Impairment of goodwill (group)
- Valuation of defined benefit pension scheme liabilities (group)
- Impairment of investments in subsidiary undertakings (parent)

Materiality

- Overall group materiality: £27,300,000 (2023: £20,800,000) based on approximately 5% of adjusted profit before tax (2023: approximately 5% of profit before tax).
- Overall company materiality: £8,900,000 (2023: £6,357,000) based on approximately 1% of total assets.
- Performance materiality: £20,400,000 (2023: £15,000,000) (group) and £6,600,000 (2023: £4,700,000) (company).

The scope of our audit

As part of designing our audit, we determined materiality and assessed the risks of material misstatement in the financial statements.

Key audit matters

Key audit matters are those matters that, in the auditors' professional judgement, were of most significance in the audit of the financial statements of the current period and include the most significant assessed risks of material misstatement (whether or not due to fraud) identified by the auditors, including those which had the greatest effect on: the overall audit strategy; the allocation of resources in the audit; and directing the efforts of the engagement team. These matters, and any comments we make on the results of our procedures thereon, were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

This is not a complete list of all risks identified by our audit.

The key audit matters below are consistent with last year.

Key audit matter	How our audit addressed the key audit matter
<p>Impairment of goodwill (group) Refer to the Audit Committee report on page 2.93 in Report 2 and to note 9 in the financial statements.</p> <p>The group recognised £1,365.9 million of goodwill on the balance sheet at 31 December 2024. Management's annual assessment of whether goodwill is impaired is dependent on future cash flows of the underlying Cash Generating Units ("CGUs") and there is a risk that, if these cash flows are not sufficient to support the carrying value, the assets may be impaired. Having considered the wider industry environment and business performance of each CGU, we consider that the CGUs for Business Assurance, Building & Construction and Chemicals & Pharma represent a heightened risk of impairment compared to other CGUs, requiring greater audit effort.</p> <p>As this assessment is based on the future value in use, and a significant amount of value is based on the terminal value of the CGUs, future cash flows must be estimated, which can be highly judgemental and could significantly impact the estimated value in use.</p>	<p>We evaluated management's cash flow forecasts and understood the process by which they were determined and approved. This included confirming that the forecasts were consistent with the latest Board approved budgets and checking the methodology and mathematical accuracy of the underlying calculations, with no exceptions identified.</p> <p>We evaluated the inputs included in the value in use calculations and challenged the key assumptions for the higher risk CGUs (Business Assurance, Building & Construction and Chemicals & Pharma) by obtaining evidence including in respect of the following:</p> <ul style="list-style-type: none"> the growth rates used in the cash flow forecasts by comparing them with historical results, external forecasts and our understanding of the business; using our internal valuation experts to evaluate the discount rate by comparing the cost of capital for the group with comparable organisations; and the long-term growth rates by comparing these with publicly available market data on projected growth rates in key territories such as China, the United States and the United Kingdom. <p>We performed sensitivity analyses around these assumptions. We also challenged the extent to which climate change considerations had been reflected, as appropriate, in management's impairment assessment process.</p> <p>Having ascertained the extent of change in those assumptions that either individually or collectively would be required for an impairment to arise, we considered the likelihood of such a movement occurring.</p> <p>Our testing did not identify any impairment and confirmed that it would require significant downside changes before any impairment would be triggered.</p> <p>In addition, we assessed the appropriateness of the CGUs used in the impairment assessment and the related disclosures and concluded that these were appropriate.</p>

Key audit matter	How our audit addressed the key audit matter
<p>Valuation of defined benefit pension scheme liabilities (group) Refer to the Audit Committee report on page 2.93 in Report 2 and to note 16 in the financial statements.</p> <p>The group has two major pension schemes in the United Kingdom and Switzerland. The United Kingdom scheme has a net surplus of £27.2 million and the Switzerland scheme has a net deficit of £5.2 million. They were recognised on the balance sheet at 31 December 2024.</p> <p>Based on the size of the underlying defined benefit obligation (£100.1million) we focused on the United Kingdom scheme, the only scheme whose liability (£80.5million) is material to the group financial statements.</p> <p>The valuation of pension liabilities involves the exercise of judgement and technical expertise in choosing appropriate actuarial assumptions such as the discount rate, inflation level, mortality rates and salary increases.</p> <p>Management engaged external actuarial experts to assist them in selecting appropriate assumptions and to calculate the liabilities. The methodologies and assumptions utilised are judgemental and could significantly impact the magnitude of the liabilities recognised.</p> <p>Impairment of investments in subsidiary undertakings (parent) Refer to note E in the Company financial statements.</p> <p>The parent company had £369.9 million of investments in subsidiary undertakings at 31 December 2024. There is a risk that the performance of the subsidiary undertakings is not sufficient to support the carrying value and the assets may be impaired. Management has performed an assessment of impairment indicators with none being identified.</p>	<p>We utilised our internal actuarial experts to evaluate whether the assumptions and methodology used in calculating the pension liabilities were reasonable, by:</p> <ul style="list-style-type: none"> Assessing whether salary increases and mortality rate assumptions were reasonable based on the consideration of the specifics of the specifics of the United Kingdom plan, pension plans of similar maturity to the group's and industry benchmarks; Evaluating the consistency of the discount and inflation rate assumptions with our internally developed benchmarks based on national data; and Reviewing the methodology and calculations prepared by external actuaries to assess their appropriateness and the consistency with the assumptions used. <p>Based on our procedures, we concluded that the key assumptions utilised lay within acceptable ranges and that the methodology was appropriate. We assessed the related disclosures included in the group financial statements and concluded that these were appropriate.</p> <p>We evaluated management's assessment of impairment indicators and considered the consistency with other audit procedures performed. We concluded management's view that no impairment indicators exist was reasonable.</p>

How we tailored the audit scope

We tailored the scope of our audit to ensure that we performed enough work to be able to give an opinion on the financial statements as a whole, taking into account the structure of the group and the company, the accounting processes and controls, and the industry in which they operate.

Our scoping is based on the group's consolidation structure. The group's operations are spread across over 100 territories and within each territory there are generally multiple reporting units. The results are not consolidated at a territory or regional level, so we determined that the most appropriate level to determine components was the individual reporting unit within the group's consolidation.

When determining our scope, we considered the requirements of the revised auditing standard for group audits. Due to the disaggregation of the group's results across various reporting units, we identified three reporting units in the United States and two reporting units in China as being significant due to their contribution to the group's revenue.

To obtain sufficient coverage over the financial statements, we instructed local auditors to undertake full scope audits over a further 50 reporting units and specified audit procedures over revenue, contract assets and contract liabilities for 2 reporting units. In total, reporting units in 21 territories were subject to audit procedures. We also undertook targeted risk assessment procedures over the remaining reporting units, other than those considered to be inconsequential.

Audit procedures were performed centrally in relation to various balances and activities accounted for and managed centrally by the Group engagement team, including goodwill, defined benefit pension schemes, borrowings, and share based payments as well as the consolidation. For the purpose of the group audit, we performed a full scope audit on the parent company and audit procedures over certain balances for two other head office entities, in addition to the procedures undertaken by local auditors.

Where work was performed by local auditors, we determined the level of involvement and oversight we needed to have in the audit work at those reporting units to be able to conclude whether sufficient appropriate audit evidence had been obtained as a basis for our opinion on the consolidated financial statements.

Our oversight procedures included the issuance of formal written instructions to component auditors setting out the work to be performed by them and regular communication throughout the audit cycle. This included regular conference calls, attendance at selected audit clearance meetings, and reviewing and assessing matters reported to us. This was supplemented by the review of selected audit working papers supporting the audit of certain reporting units. We also visited the Group's operations and met with local audit teams in the United States, China, Hong Kong, the United Kingdom, Australia, India and Mexico.

The above procedures accounted for 73% of the Group's revenue and 71% of the Group's profit before tax, giving us the evidence we needed for our opinion on the Group financial statements as a whole.

Given the parent company is an investment holding company, our audit focused on the investment in subsidiary undertakings, amounts owed to and from other group companies, and capital and reserves.

The impact of climate risk on our audit

As part of our audit we have made enquiries of management to understand the process they adopted to assess the extent of the potential impact of climate risk on the financial statements and support the disclosures made in relation to climate risk within the Strategic Report and Sustainability Report.

In addition to enquiries with management, we also read the Carbon Disclosure Project submission made by the group.

We assessed the completeness of management's climate risk assessment by: reading external reporting made by management including the Carbon Disclosure Project submissions and considering whether there were any internal inconsistencies in their climate reporting; and challenging the consistency of management's climate impact assessment with internal board minutes, including whether the time horizons management have used take account of the relevant aspects of climate change such as transition risks.

The Board has made commitments to get to net zero carbon emissions by 2050.

Management has assessed that there is no material impact on the financial reporting judgement and estimates arising from their considerations, consistent with their assessment of no material impact of climate-related policies directly on the business.

Using our knowledge of the business, we evaluated management's risk assessment, its estimates as set out in note 1 of the financial statements and resulting disclosures where significant. In particular we have considered how climate risk would impact the assumptions made in the forecasts prepared by management used in their impairment analyses, as referenced in the key audit matter in relation to the impairment of goodwill above.

We also considered the consistency of the disclosures in relation to climate change within the Strategic Report and the Sustainability Report with the financial statements and our knowledge obtained from the audit.

Our procedures did not identify any material impact in the context of our audit of the financial statements as a whole, or our key audit matters, for the year ended 31 December 2024.

Materiality

The scope of our audit was influenced by our application of materiality. We set certain quantitative thresholds for materiality. These, together with qualitative considerations, helped us to determine the scope of our audit and the nature, timing and extent of our audit procedures on the individual financial statement line items and disclosures and in evaluating the effect of misstatements, both individually and in aggregate on the financial statements as a whole.

Based on our professional judgement, we determined materiality for the financial statements as a whole as follows:

	Financial statements - group	Financial statements - company
Overall materiality	£27,300,000 (2023: £20,800,000).	£8,900,000 (2023: £6,357,000).
How we determined it	approximately 5% of adjusted profit before tax (2023: approximately 5% of profit before tax)	approximately 1% of total assets
Rationale for benchmark applied	We consider adjusted profit before tax as the primary measure used by the shareholders and other users of the financial statements in assessing the performance of the Group. This is a generally accepted benchmark. We previously used profit before tax as the benchmark used to assess overall materiality, however, we revisited how shareholders and other users of the financial statements assess the group's financial performance and noted a greater focus on adjusted profit before tax	We determined our materiality based on total assets, which is more applicable than a performance-related measure as the company is an investment holding company for the group.

For each component in the scope of our group audit, we allocated a materiality that is less than our overall group materiality. The range of materiality allocated across components was £0.5 million to £8.9 million. Certain components were audited to a local statutory audit materiality that was also less than our overall group materiality.

We use performance materiality to reduce to an appropriately low level the probability that the aggregate of uncorrected and undetected misstatements exceeds overall materiality. Specifically, we use performance materiality in determining the scope of our audit and the nature and extent of our testing of account balances, classes of transactions and disclosures, for example in determining sample sizes. Our performance materiality was 75% (2023: 75%) of overall materiality, amounting to £20,400,000 (2023: £15,000,000) for the group financial statements and £6,600,000 (2023: £4,700,000) for the company financial statements.

We agreed with the Audit Committee that we would report to them misstatements identified during our audit above £1,360,000 (group audit) (2023: £1,000,000) and £445,000 (company audit) (2023: £317,800) as well as misstatements below those amounts that, in our view, warranted reporting for qualitative reasons.

Conclusions relating to going concern

Our evaluation of the directors' assessment of the group's and the company's ability to continue to adopt the going concern basis of accounting included:

- An assessment of management's base case and severe but plausible scenarios, challenging the key assumptions;
- Considering the group's available financing, including related covenants, and maturity profile to assess liquidity through the assessment period;
- Testing the mathematical integrity of the forecasts and the models and reconciled these to Board approved budgets; and
- Performing our own independent sensitivity analysis to assess appropriate downside scenarios.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the group's and the company's ability to continue as a going concern for a period of at least twelve months from when the financial statements are authorised for issue.

In auditing the financial statements, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

However, because not all future events or conditions can be predicted, this conclusion is not a guarantee as to the group's and the company's ability to continue as a going concern.

In relation to the directors' reporting on how they have applied the UK Corporate Governance Code, we have nothing material to add or draw attention to in relation to the directors' statement in the financial statements about whether the directors considered it appropriate to adopt the going concern basis of accounting.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report.

**Reporting on other information**

The other information comprises all of the information in the Annual Report other than the financial statements and our auditors' report thereon. The directors are responsible for the other information. Our opinion on the financial statements does not cover the other information and, accordingly, we do not express an audit opinion or, except to the extent otherwise explicitly stated in this report, any form of assurance thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If we identify an apparent material inconsistency or material misstatement, we are required to perform procedures to conclude whether there is a material misstatement of the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report based on these responsibilities.

With respect to the Strategic report and Directors' report, we also considered whether the disclosures required by the UK Companies Act 2006 have been included.

Based on our work undertaken in the course of the audit, the Companies Act 2006 requires us also to report certain opinions and matters as described below.

Strategic report and Directors' report

In our opinion, based on the work undertaken in the course of the audit, the information given in the Strategic report and Directors' report for the year ended 31 December 2024 is consistent with the financial statements and has been prepared in accordance with applicable legal requirements.

In light of the knowledge and understanding of the group and company and their environment obtained in the course of the audit, we did not identify any material misstatements in the Strategic report and Directors' report.

Directors' Remuneration

In our opinion, the part of the Remuneration Committee report to be audited has been properly prepared in accordance with the Companies Act 2006.

Corporate governance statement

The Listing Rules require us to review the directors' statements in relation to going concern, longer-term viability and that part of the corporate governance statement relating to the company's compliance with the provisions of the UK Corporate Governance Code specified for our review. Our additional responsibilities with respect to the corporate governance statement as other information are described in the Reporting on other information section of this report.

Based on the work undertaken as part of our audit, we have concluded that each of the following elements of the corporate governance statement is materially consistent with the financial statements and our knowledge obtained during the audit, and we have nothing material to add or draw attention to in relation to:

- The directors' confirmation that they have carried out a robust assessment of the emerging and principal risks;
- The disclosures in the Annual Report that describe those principal risks, what procedures are in place to identify emerging risks and an explanation of how these are being managed or mitigated;
- The directors' statement in the financial statements about whether they considered it appropriate to adopt the going concern basis of accounting in preparing them, and their identification of any material uncertainties to the group's and company's ability to continue to do so over a period of at least twelve months from the date of approval of the financial statements;
- The directors' explanation as to their assessment of the group's and company's prospects, the period this assessment covers and why the period is appropriate; and
- The directors' statement as to whether they have a reasonable expectation that the company will be able to continue in operation and meet its liabilities as they fall due over the period of its assessment, including any related disclosures drawing attention to any necessary qualifications or assumptions.

Our review of the directors' statement regarding the longer-term viability of the group and company was substantially less in scope than an audit and only consisted of making inquiries and considering the directors' process supporting their statement; checking that the statement is in alignment with the relevant provisions of the UK Corporate Governance Code; and considering whether the statement is consistent with the financial statements and our knowledge and understanding of the group and company and their environment obtained in the course of the audit.

In addition, based on the work undertaken as part of our audit, we have concluded that each of the following elements of the corporate governance statement is materially consistent with the financial statements and our knowledge obtained during the audit:

- The directors' statement that they consider the Annual Report, taken as a whole, is fair, balanced and understandable, and provides the information necessary for the members to assess the group's and company's position, performance, business model and strategy;
- The section of the Annual Report that describes the review of effectiveness of risk management and internal control systems; and
- The section of the Annual Report describing the work of the Audit Committee.

We have nothing to report in respect of our responsibility to report when the directors' statement relating to the company's compliance with the Code does not properly disclose a departure from a relevant provision of the Code specified under the Listing Rules for review by the auditors.

Responsibilities for the financial statements and the audit Responsibilities of the directors for the financial statements

As explained more fully in the Statement of Directors responsibilities, the directors are responsible for the preparation of the financial statements in accordance with the applicable framework and for being satisfied that they give a true and fair view. The directors are also responsible for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the group's and the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the group or the company or to cease operations, or have no realistic alternative but to do so.

Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud. The extent to which our procedures are capable of detecting irregularities, including fraud, is detailed below.

Based on our understanding of the group and industry, we identified that the principal risks of non-compliance with laws and regulations related to fraud, anti-bribery and corruption laws, and we considered the extent to which non-compliance might have a material effect on the financial statements. We also considered those laws and regulations that have a direct impact on the financial statements such as the Companies Act 2006 and relevant tax legislation. We evaluated management's incentives and opportunities for fraudulent manipulation of the financial statements (including the risk of override of controls), and determined that the principal risks were related to fraudulent journal entries to manipulate the financial performance in order to achieve management incentive scheme targets. The group engagement team shared this risk assessment with the component auditors so that they could include appropriate audit procedures in response to such risks in their work. Audit procedures performed by the group engagement team and/or component auditors included:

- Enquiring of management, those charged with governance and the group's legal counsel around actual and potential fraud and non-compliance with laws and regulations;
- Auditing the risk of management override of controls and the risk of fraud in revenue recognition, including through testing journal entries and other adjustments for appropriateness, testing accounting estimates, testing accrued income and evaluating the business rationale of any significant transactions outside the normal course of business;

- Enquiring of the group's staff in tax and compliance functions to identify any instances of non-compliance with laws and regulations;
- Obtaining and understanding the results of whistleblowing procedures;
- Enquiring of the group's Head of Internal Audit and reviewing internal audit reports; and
- Reviewing financial statement disclosures and testing to supporting documentation to assess compliance with applicable laws and regulations.

There are inherent limitations in the audit procedures described above. We are less likely to become aware of instances of non-compliance with laws and regulations that are not closely related to events and transactions reflected in the financial statements. Also, the risk of not detecting a material misstatement due to fraud is higher than the risk of not detecting one resulting from error, as fraud may involve deliberate concealment by, for example, forgery or intentional misrepresentations, or through collusion.

Our audit testing might include testing complete populations of certain transactions and balances, possibly using data auditing techniques. However, it typically involves selecting a limited number of items for testing, rather than testing complete populations. We will often seek to target particular items for testing based on their size or risk characteristics. In other cases, we will use audit sampling to enable us to draw a conclusion about the population from which the sample is selected.

A further description of our responsibilities for the audit of the financial statements is located on the FRC's website at: www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditors' report.

Use of this report

This report, including the opinions, has been prepared for and only for the company's members as a body in accordance with Chapter 3 of Part 16 of the Companies Act 2006 and for no other purpose. We do not, in giving these opinions, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

Other required reporting

Companies Act 2006 exception reporting

Under the Companies Act 2006 we are required to report to you if, in our opinion:

- we have not obtained all the information and explanations we require for our audit; or
- adequate accounting records have not been kept by the company, or returns adequate for our audit have not been received from branches not visited by us; or
- certain disclosures of directors' remuneration specified by law are not made; or
- the company financial statements and the part of the Remuneration Committee report to be audited are not in agreement with the accounting records and returns.

We have no exceptions to report arising from this responsibility.

Appointment

Following the recommendation of the Audit Committee, we were appointed by the members on 25 May 2016 to audit the financial statements for the year ended 31 December 2016 and subsequent financial periods. The period of total uninterrupted engagement is nine years, covering the years ended 31 December 2016 to 31 December 2024.

Other matter

The company is required by the Financial Conduct Authority Disclosure Guidance and Transparency Rules to include these financial statements in an annual financial report prepared under the structured digital format required by DTR 4.1.15R – 4.1.18R and filed on the National Storage Mechanism of the Financial Conduct Authority. This auditors' report provides no assurance over whether the structured digital format annual financial report has been prepared in accordance with those requirements.

Introduction

In the reporting of financial information, the Directors have adopted various Alternative Performance Measures ('APMs'). These measures are not defined by UK-adopted international accounting standards. As adjusted results and measures include the benefits of certain Separately Disclosed Items ('SDIs') (as detailed in note 3), but exclude significant costs related to those items, they should not be regarded as a complete picture of the Group's financial performance, which is presented on the face of the income statement under total results. The exclusion of these items may result in adjusted operating profit being materially higher or lower than total operating profit. In particular, where significant impairments, restructuring charges and legal costs are excluded in any year, adjusted operating profit will be higher than total operating profit.

Purpose

The Directors believe that APMs assist the user of the Annual Report & Accounts in providing useful information around trends, performance and the position of the Group between reporting periods and across operating divisions by adjusting for non-recurring factors assessing the total results of the Group, as well as aiding users in understanding the Group's performance. APMs are commonly used by management for performance review, budget setting and forecasting across the Group.

Some of the metrics shown for the Group are translated at constant exchange rates. Constant rates compares both 2024 and 2023 figures at the average and year-end exchange rates for 2024, in order to remove the impact of currency translation from the Group's growth figures.

Changes to APMs

There have been no significant changes to the definitions of existing APMs or the APMs used by the Group in the year.

Reconciliations

Reconciliations between statutory and adjusted measures can be found in the Financial review on page 1.37 in Report 1.

APM	Closest equivalent statutory measure	Adjustments to reconcile adjusted to statutory	Definition and purpose
Like-for-like revenue ('LFL')	No direct equivalent	Acquisitions and business disposals	Including acquisitions following their 12-month anniversary of ownership and removing the historical contribution of any business disposals/closures. Excluding acquisitions and disposals demonstrates the Group's performance for comparable operations year-on-year by removing any inflation of revenue in the current year or prior year contributed from new acquisitions or disposals.
Adjusted free cash flow	Net cash flows from operating activities	Includes cash flows from acquisition and sale of PPE, repayment of lease liabilities and interest received. Excludes the impact of cash flow SDIs.	Free cash flow includes net cash flows from operating activities and certain cash flows from investing activities and the repayment of lease liabilities. The following items are excluded: all other cash flows from financing activities. This measure reflects the cash available to shareholders. This is a key performance metric for the incentive scheme.

APM	Closest equivalent statutory measure	Adjustments to reconcile adjusted to statutory	Definition and purpose
Adjusted operating profit*	Statutory operating profit*	Separately disclosed items (see note 3) including amortisation of acquisition intangibles; impairment of goodwill and other assets; the profit or loss on disposals of businesses or other significant non-current assets; costs of acquiring and integrating acquisitions; the cost of any fundamental restructuring; material claims and settlements; significant recycling of amounts from equity to the income statement; and unrealised market or fair value gains or losses on financial assets or liabilities, including contingent consideration.	Adjusted operating profit is a key measure of the Group's performance and is based on operating profit before the impact of SDIs. These items relate to income or costs that are excluded from adjusted operating profit due to their nature or size to provide readers with a clear and consistent view of the business performance of the Group and its operating divisions on a year-on-year basis.
Adjusted operating margin	Statutory operating margin	As per adjusted operating profit.	Adjusted operating profit divided by revenue, both before the impact of SDIs. These items relate to income or costs that are excluded from adjusted operating profit due to their nature or size to provide readers with a clear and consistent view of the business performance of the Group and its operating divisions on a year-on-year basis.
Adjusted diluted earnings per share	Statutory diluted earnings per share	SDIs after tax (see note 3) including amortisation of acquisition intangibles; impairment of goodwill and other assets; the profit or loss on disposals of businesses or other significant non-current assets; costs of acquiring and integrating acquisitions; the cost of any fundamental restructuring; material claims and settlements; significant recycling of amounts from equity to the income statement; and unrealised market or fair value gains or losses on financial assets or liabilities, including contingent consideration.	This metric relates to profit after tax before SDIs divided by the weighted average number of ordinary shares in issue during the financial year adjusted for the effects of potentially dilutive shares. This is a key performance metric for the incentive scheme.
Adjusted cash flow from operations	Cash flow from operations	Cash flows relating to separately disclosed items, as identified in the cash flow statement.	This excludes the impact of the cash flows relating to SDIs to reflect the cash flows available during recurring operations.
Adjusted net financing costs	Statutory net finance costs	Changes in fair value of contingent consideration.	Adjusted net financing costs exclude income or costs that, due to their nature or size, provide the readers with a clear and consistent view of the business performance of the Group on a year-on-year basis.

APM	Closest equivalent statutory measure	Adjustments to reconcile adjusted to statutory	Definition and purpose
Adjusted profit after tax	Statutory profit after tax	As per adjusted profit and additionally any separately disclosed tax related items are excluded.	Adjusted profit after tax is based on profit after tax before the impact of SDIs. These items relate to income or costs that are excluded from adjusted operating profit due to their nature or size to provide readers with a clear and consistent view of the business performance of the Group and its operating divisions on a year-on-year basis.
ROIC (based on adjusted profit)	No direct equivalent	Adjusted operating profit is the profit measure used in calculating ROIC.	Adjusted profit after tax (as defined above) divided by invested capital. This is a key performance metric for the incentive scheme.
Net financial debt	No direct equivalent	Total net debt less lease liabilities.	This measure shows the non-operational financial debt of the Group, excluding lease liabilities.
Adjusted EBITDA	Statutory EBITDA	Earnings before interest, tax, depreciation and amortisation and excluding SDIs (see note 3) including amortisation of acquisition intangibles; impairment of goodwill and other assets; the profit or loss on disposals of businesses or other significant non-current assets; costs of acquiring and integrating acquisitions; the cost of any fundamental restructuring; material claims and settlements; significant recycling of amounts from equity to the income statement; and unrealised market or fair value gains or losses on financial assets or liabilities, including contingent consideration.	This metric removes the impact of both SDIs and interest, tax, depreciation and amortisation to provide a clear and consistent view of the business performance of the Group year-on-year at a level before the impact of some non-cash items and financing costs.

* Operating profit is presented on the consolidated income statement. It is not defined per IFRS, however, is a generally accepted profit measure.

**Shareholders' enquiries**

Any shareholders with enquiries relating to their shareholding should, in the first instance, contact our Registrar, EQ ('Equiniti'), using the telephone number or the address below.

Electronic shareholders communications

Instead of receiving paper copies, shareholders can elect to receive communications by email each time the Company distributes documents. This can be done by registering for email communications at www.shareview.co.uk. In the event that you change your mind or require a paper version of any document in the future, please contact the Registrar.

Access to EQ Shareview allows shareholders to view details about their shareholdings, submit a proxy vote for shareholders meetings and notify a change of address. In addition to this, shareholders can complete dividend mandates online, which facilitates the payment of dividends directly into a nominated bank account.

ShareGift

If you have a small shareholding which is uneconomical to sell, you may want to consider donating it to ShareGift, a share donation charity. Details of the scheme are available from:

www.sharegift.org

responsible forestry

Printed by a CarbonNeutral® Company certified to ISO 14001 environmental management system.

Printed on material from well-managed, FSC® certified forests and other controlled sources.

100% of the inks used are HP Indigo ElectroInk which complies with RoHS legislation and meets the chemical requirements of the Nordic Ecolabel (Nordic Swan) for printing companies, 95% of press chemicals are recycled for further use and, on average 99% of any waste associated with this production will be recycled and the remaining 1% used to generate energy.

The paper is Carbon Balanced with World Land Trust, an international conservation charity, who offset carbon emissions through the purchase and preservation of high conservation value land. Through protecting standing forests, under threat of clearance, carbon is locked-in, that would otherwise be released.
